## Notes to Section VIII. A—F.

1. When textile goods are described as goods of a certain textile material in combination with or with an admixture of other textile materials, this denotes, unless otherwise specifically laid down, that without regard to the proportions of the different components the predominant first named in the headings in question is that which determines the classification of the article as silk, woollen, linen, &c. goods; but no regard shall be had to isolated threads in the tissue, evidently

|      | Notes to the preceding numbers in Section VIII, G.  |  |
|      | 1. In assessing duty on sewn articles the outside tissue shall be taken as the basis. If difficulty arises in determining the chief component, the most highly-taxed material shall be taken as the basis for assessing duty.   |  |
|      | **2. All fancy sewing, including hem-stitching, other than simple, so-called herringbone, chain-stitching and the affixing of ornaments by means of metal wire or paste, shall be regarded as embroidery; sewn articles with embroidered monograms, single letters, cyphers and the like shall not be dutiable as embroidered articles, provided that the monograms, letters, cyphers, or the like do not cover a surface of more than 6 sq. square; a simple chainstitching, intended only to fasten together different parts of a sewn article shall not, however, be considered as embroidery. |  |
|      | As a simple leucostich ( <i>enkelt nålsöm</i> ) which is not to be treated as embroidery, shall be regarded also such long double and treble stitch ( <i>half och helstapelöm</i> ) as is applied in a single row and in immediate connection with the hem.   |  |
|      | **3. Articles having applications, or with rib-   |  |

| Nos. | Goods.   | Duty.<br>Kr. ore.  | Nos. | Goods.   | Duty.<br>Kr. ore. |
|------|--|--|------|--|-------------------|
| 731  | Of a thickness less than 0.4 millimetres<br>100 kilos.   |  | 775  | Not worked; also hollow columns for use in connection with conduits, lighting, &c. . . . .   | 4 00              |
| 732  | Round, rectangular (square) or hexagonal; also turned, smooth cylindrical axle blocks, not further worked . . . . .  | 8 00   | 776  | Worked, such as shafts, curved, formed into spirals furnished with dauges, pipes having the thickness of the metal augmented at their ends, and pipes with ends welded together . . . . .  | 5 00              |
| 733  | Of other shapes . . . . .  | 8 00   |      | <i>Note.</i> —When pipes having an internal diameter of more than 250 millimetres are welded together they are to be considered as "sheets, curved with their edges welded together," if not, as "Articles of sheets or plates, u.s.m."                              |                   |
|      | <i>Note 1.</i> Cold-rolled or cold-drawn iron presents a surface either bright and free of oxide, or, if it has been annealed after the cold process, covered with a thin film of oxide.   |  |      | Pipes, cold-drawn, of round or other cross section, even if worked:  |                   |
|      | <i>Note 2.</i> Cold-rolled or cold-drawn iron of a breadth of 10 millimetres or less is dutiable as wire.  |  | 757  | With a thickness of metal of 2 millimetres or more<br>100 kilos.   | 6 00              |
|      | <i>Note to Nos. 725-727 and 729-731.</i>   |  | 758  | Of a less thickness of metal . . . . .   | 3 00              |
|      | Malleable iron in the form of flat iron having a breadth of more than 250 millimetres, with a thickness not exceeding one-tenth of the breadth, is dutiable as "plates and sheets."  |  |      | <i>Notes to Nos. 755-5:</i>  |                   |
|      | Plates and sheets, cut or not:   |  |      | 1 Pipes which by some mechanical process have been furnished with a casing of nickel, copper or copper alloy are dutiable as pipes of the metal of which the casings consist.  |                   |
|      | Not ground or polished (except by cold-rolling), without coating of other metals or other surface coating, even if they are corrugated or have patterns rolled in on one side:   |  |      | 22 Sockets affixed to pipes shall not affect the tariff treatment of the pipes.  |                   |
| 734  | Of a thickness of 3 millimetres or more<br>100 kilos.  | 3 00   |      | 3 As regards insulation pipes, see Section XIII. B. See also the Notes to Section XII. A.  |                   |
| 735  | Of a thickness less than 3 millimetres, but not less than 0.6 millimetres . . . . .  | 4 50   | 759  | Sockets, flanges, plugs, caps, angle-pipes, T-pipes, cross-pipes, and other parts of pipes formed in a similar way—all provided they are produced from malleable material; also cylinders for compressed gases . . . . .   | 9 00              |
| 736  | Of a thickness less than 0.6 millimetres, but not less than 0.3 millimetres; also plates and sheets, all kinds, with varying degrees of hardness in their cross section (compound steel plates) . . . . .  | 5 00   |      | Wire, cold-rolled or drawn, including cold-rolled or cold-drawn hoop and shape iron, all in the form of rods or coils, the greatest dimension of cross-section being 10 millimetres or less:   |                   |
| 737  | Of a thickness less than 0.3 millimetres . . . . .   | Free   | 760  | Polished (so-called silver steel and piano wire) and wire whose cross-section varies in different parts of the same piece . . . . .  | 35 00             |
|      | Ground, furnished with bright surface, free of oxide (cold-rolled), or with dull surface free of oxide (pickled), or with reflecting film of oxide (so-called lustrate plates), polished, painted, varnished, nickelled, lacquered, enamelled, burnished, or with impressed patterns:  |  |      | <i>Notes.</i> —  |                   |
| 738  | Of a thickness of 3 millimetres or more<br>100 kilos.  | 6 00   |      | 1 Wire which has received a bright surface by means of drawing only is not to be treated as polished.  |                   |
| 739  | Of a thickness of from 0.25 millimetres to 3 millimetres; also cold-rolled sheets less than 0.25 millimetres thick . . . . .   | 7 00   |      | 2 So-called silver steel with the greatest dimension of the cross-section exceeding 10 millimetres is dutiable as tool steel in bars, wrought.   |                   |
| 740  | Of a thickness less than 0.25 millimetres, other than cold-rolled . . . . .  | Free   |      | Other kinds:   |                   |
|      | <i>Notes to Nos. 738-740:</i>  |  |      | Flat (with two opposite sides greater than the other two):   |                   |
|      | 1. As cold-rolled plates and sheets shall also be treated those which, after cold-rolling, have been annealed and present a surface coated with a thin film of oxide.  |  | 761  | Of a thickness of 0.6 millimetres or more<br>100 kilos.  | 7 00              |
|      | 2. A coating with oil, clearly intended only to protect sheets against rust, shall not be considered as painting or varnishing.  |  | 762  | Of a thickness of less than 0.6 millimetres but not less than 0.3 millimetres . . . . .  | 6 00              |
|      | 3. Sheets with impressed patterns present, in distinction to plates with patterns rolled in, projections or depressions on the back corresponding to the pattern.  |  | 763  | Of a thickness less than 0.3 millimetres<br>100 kilos.   | 4 00              |
| 741  | Coated with pure tin or with tin containing lead   | Free   |      | Of shapes other than flat, such as round, U-shaped, &c. also so-called handle wire:  |                   |
| 742  | Coated with non-precious metals other than those mentioned in Nos. 738-741 or alloys of them, even if corrugated:  |  | 764  | The greatest dimension of the cross-section being 1.5 millimetres or more . . . . .  | 4 50              |
|      | (a) Coated with pure lead or containing tin, of a thickness not exceeding 0.3 millimetres . .  | Free   | 765  | The greatest dimension of the cross-section being less than 1.5 millimetres but not less than 0.5 millimetres . . . . .  | 7 00              |
|      | (b) Other . . . . .  | 7 00   | 766  | The greatest dimension of the cross-section being less than 0.5 millimetres . . . . .  | 9 00              |
|      | <i>Notes to Nos. 734-742:</i>  |  |      | <i>Notes to Nos. 760-6:</i>  |                   |
|      | (1) The plates and sheets mentioned above when not cut rectangularly are subject to a surtax of 15%, if less than 7 millimetres thick.   |  |      | 1 Wire, coated with other non-precious metals with the exception of copper and copper alloys, pays the duty on similar wire without coating, increased by 15%.   |                   |
|      | (2) Strips (ribbons) cut from sheets shall pay duty as "plates and sheets," whatever be their breadth.   |  |      | 2 As regards so-called handle wire, it must be noted that the thickness of the single wires is to be taken as the basis for assessing duty.  |                   |
|      | Curved and with edges welded together; also if perforated:   |  |      | 3 Cold-rolled or drawn wire having a maximum dimension of cross-section exceeding 10 millimetres shall be dutiable as cold-rolled bars, unless otherwise specially provided.   |                   |
| 743  | Of 3 millimetres or more in thickness 100 kilos.   | 6 00   |      | 4 Ropes and forming ropes of iron wire, fencing wire whether barbed or not, wire netting and gauze, furniture springs with loose or fixed ends, and wire frames for drying apparatus shall pay twice the amount of duty leviable on the wire of which they are made. |                   |
| 744  | Less than 3 millimetres but not less than 1.6 millimetres in thickness . . . . .   | 7 50   |      | As to rolled wire, see No. 727.  |                   |
| 745  | Of a thickness less than 1.6 millimetres<br>100 kilos.   | 12 00  |      | Of, also Note 2 to Section XII. A.   |                   |
|      | <i>Note to Nos. 743-745.</i> —Sheets curved into pipes and having their edges welded together are dutiable as pipes, if their internal diameter does not exceed 250 millimetres.   |  | 767  | Wire, with textile materials or paper spun round or coating it; also shaped springs of flat wire not more than 10 millimetres broad for articles of clothing or similar purposes, with or without covering . . . . .   | 1 00              |
| 746  | So-called expanded metal ( <i>strickmetall</i> ) made from sheets . . . . .  | Twice the rate of duty on the sheet from which it is made. | 768  | Corset burs; also shaped springs of flat wire more than 10 millimetres broad for articles of clothing or similar purposes with or without covering . . . . .   | 0 40              |
|      | Articles of sheets or plates, u.s.m.:  |  |      | <i>Notes to Nos. 767-8.</i> —In determining the breadth of covered springs, no account is taken of the covering.   |                   |
| 747  | Gilt or silvered . . . . .   | 1 00   | 769  | Springs for mechanism, watch, &c., of bands or flat wire more than 3 millimetres broad; umbrella and parasol ribs with shaped ends, with or without forks, also forks for ribs . . . . .   | 0 50              |
| 748  | Enamelled . . . . .  | 0 40   |      | <i>Note.</i> —Watch-springs and mechanism springs of flat wire not more than 3 millimetres broad are dutiable as parts of clockwork.   |                   |
| 749  | Covered with nickel, copper or brass, or bronzed or lacquered . . . . .  | 0 50   | 770  | Umbrella and parasol frames, put together, even if with sticks of material—other than iron . . . . .   | 0 80              |
|      | Other kinds:   |  |      | Holders of iron wire the greatest dimension of the cross-section being:  |                   |
| 750  | Weighting 20 kilos, net or more per article:   |  | 771  | 0.6 millimetre or more . . . . .   | 0 75              |
| 751  | Pressed, welded or galvanised . . . . .  | 0 08   | 772  | Less than 0.6 millimetre . . . . .   | 2 00              |
|      | Other kinds . . . . .  | 0 06   |      | <i>Note to Nos. 771-2.</i> —If the goods are covered with wire soldered together, the dimensions of the single wires are to be taken as the basis in assessing duty.   |                   |
|      | Weighting less than 20 kilos, but not less than 1 kilo, net per article:   |  |      |  |                   |
| 752  | Sticks for hoists ( <i>elevatorskoper</i> ) . . . . .  | 0 10   |      |  |                   |
| 753  | Other kinds . . . . .  | 0 15   |      |  |                   |
| 754  | Weighting less than 1 kilo, net per article . . . . .  | 0 20   |      |  |                   |
|      | Pipes, rolled or hot-drawn, of round or other cross section, produced either from solid material or from flat iron or sheets by curving together, with or without subsequent welding, soldering, riveting or folding ( <i>falning</i> ), even if with coating of zinc, paint, zinc, or other substance as a protection against rust: |  |      |  |                   |

| 2  | Twisted hoop iron for fencing, made of flat or shaped . . . kilo.   | 0 10                  | *812 | Spades, shovels, not being household utensils, and hoes, garden-forks, hay forks and similar large fork-shaped hand-tools, also hand rakes and reapers' rakes, all with or without handles; also other hand tools, a.s.m. for agriculture or horticulture, including lawnmowers. . . . . | 0 08<br>0 10      |
| 3  | Upholsterers' nails and non-called trunk nails even with heads of other special metals, or with covering . . . . .  | 0 50                  | 813  | Curry-combs, with or without handles. . . . .  | 0 16              |
| 4  | Spikes and nails a.s.m. even if with heads wholly or partly of metal other than iron :—   |                       | 814  | Scythes, sickles and straw-cutters, with or without handles . . . . .  | 0 12              |
| 5  | Less than 45 millimètres in length; also nails, hooks, calks, &c., of all kinds, for horseshoes, and tacks. . . . .   | 15 00<br>6 50<br>3 00 | *815 | Garden shears for two hands . . . . .  |                   |
| 6  | 45 millimètres or more in length . . . . .  |                       |      | Saws, saw-blades and saw-wheels :—   |                   |
| 7  | Rail spikes, also skewers ( <i>spett</i> ) . . . . .  |                       | 816  | Circular saw blades and piercing saws, tenon saws and hand saws, with or without teeth. . . . .  | 0 20<br>0 50      |
| 8  | Wood screws; also other screws, bolts or nuts, wormed or not, weighing not more than 5 kilos, net per article, and washers and rivets :—  |                       | 817  | Blades for belt saws for cutting wood or metal. . . . .  | 0 60              |
| 9  | 12 millimètres or more in diameter; also fishplate and sleeper bolts with nuts, intended for railway and tramway rails—without regard to their dimensions. . . . .  | 6 00                  | *818 | Blades for rail-saws and for bow-files, for hand or machine use. . . . .   | 0 75              |
| 10 | From 8 to 12 millimètres in diameter, and ring-screws; also all rivets which do not fall under the preceding number . . . . .   | 20 00<br>30 00        | 819  | Blades for metal saws (jewellers' saws), and for fretsaws; also chain-saws . . . . .   | 0 30              |
| 11 | From 4 to 8 millimètres in diameter . . . . .   |                       | 820  | Saws and saw-blades, other kinds, including saws unfinished saw-blades, a.s.m. . . . .   |                   |
| 12 | Under 4 millimètres in diameter :—  |                       |      | Note.—Stone saw-blades are not to be regarded as saw-blades or unfinished saw-blades.  |                   |
| 13 | Wood screws . . . . .   | 45 00                 |      | Files and rasps :—   |                   |
| 14 | Other kinds . . . . .   | 60 00                 | 821  | More than 35 centimètres long . . . . .  | 0 15              |
| 15 | Note 1.—Nuts of 12 millimètres or more in diameter which have a bright surface (free of oxide) shall pay the same duty as nuts of from 8 to 12 millimètres in diameter.   |                       | 822  | More than 16 but not more than 35 centimètres long . . . . .   | 0 25              |
| 16 | Note 2.—The diameter of a screw is to be measured immediately above the thread. The diameter of the hole is to be taken as the diameter of a nut or washer, but when screws are imported with nuts fixed on, they shall in all cases be dutiable at the rates leviable on the nuts. |                       | *823 | Not more than 16 centimètres long . . . . .  | 0 40              |
| 17 | Chains and cables, a.s.m. :—  |                       |      | Note.—The length of files and rasps is to be measured from the point to the shaft.   |                   |
| 18 | So-called Ewatts chains with loose links belonging thereto . . . . .  | 12 00                 | 824  | Planes for wood-working, even if with wooden stock, also iron plane-stocks . . . . .   | 0 25              |
| 19 | Other kinds, the iron in the links having a diameter :—   |                       |      | Hammers, sledge-hammers, pick hammers, chisels ( <i>onglar</i> ); also punches and other tools (not pneumatic) for stone-working, with or without handles :—   |                   |
| 20 | Of 25 millimètres or more . . . . .   | 5 00                  | 825  | Weighting 5 kilos. net or more per article . . . kilo.   | 0 04              |
| 21 | Of from 6 millimètres inclusive to 25 millimètres . . . . .   | 8 00                  | *826 | Weighting less than 5 kilos, but not less than 1·5 kilos, net per article; also axes and hatchets of all kinds whatever be their weight . . . kilo.  | 0 10              |
| 22 | Of less than 6 millimètres; also link bolt-chains ( <i>falls</i> ) . . . . .  | 10 00                 | 827  | Weighting less than 1·5 kilos, net per article . . . kilo.   | 0 20              |
| 23 | Carriage and spiral springs, a.s.m. . . . .   | 20 00                 | *828 | Twist drills for metal or wood-working, drill-sockets, broaches (reamers), screw taps, chasers, screw-planes, milling cutters for metal or wood-working, wood-carving tools and cord pulleys . . . and vol.  | 15%<br>0 20       |
| 24 | Bole plate, sleepers, fish plates, rail clamps and connecting clamps, rail frames and support rails, points, crossings, tongues for springs and points; also rail frames for portable railways. . . . .   | Free                  | *829 | Drill-braces and wood shears . . . . .   |                   |
| 25 | Connecting iron, clamp-plates, chairs, turnbuckles even if cast and parts thereof, and other railway construction parts a.s.m. . . . .  | 1 00                  | *830 | Drills, a.s.m., ratchet-drills, pipe pressers, garden shears for one hand, hand-shears for cutting sheet iron, so-called bolt-cutters, shears for cutting iron and metal wire, bow-compasses and pipe cutters and parts thereof; also screw drivers with or without handles . . . . .    | 0 25              |
| 26 | Steelwork for signal-boxes, &c., and parts thereof . . . . .  | 16 00                 | 831  | Pincers, all kinds, more than 16 centimètres in length, and finished shanks thereof, loose; also screw-wrenches, clamps, hand-vices and vice-clamps and parts thereof . . . . .  | 0 20              |
| 27 | Other parts and accessories not specially named for signalling, junction and level-crossing appliances; also bogies and underframes for railway or tramway vehicles, with or without accessories 100 kilos. Articles intended for use as railway or tramway material :—             | 8 00                  |      | Pincers, all kinds, not more than 16 centimètres in length and finished shanks thereof, loose :—   | 0 75<br>0 50      |
| 28 | Axles, straight :—  |                       | *832 | Nickelled or polished . . . . .  |                   |

Notes to Nos. 1056-8—

1.—Parts of the complete articles named are

also to be included under these numbers.

2.—If any of the articles named in these numbers

is wholly or partly nickelled, the duty shall

be increased by 50%.

## NOTES TO SECTION XIII. A.

\*1.—The rates stated are applicable, unless otherwise provided, to machines, whole or in parts, even if any subordinate component parts are missing. In declaring machines in parts for clearance or warehousing, the owner must supply an explanatory statement and specification of the parts together with a drawing, showing that the parts together form a machine—so far as these may be required for the guidance of the Customs.

\*2.—The fact that a machine is imported in separate parts which arrive on different occasions shall not prevent the application of the rate applicable to the machine as a whole, if the importer so requires.

\*3.—The further regulations required to give effect to the provisions of Note 1 and 2 shall be issued by Royal Decree.

4.—Parts of machines, not specially mentioned, imported loose, shall pay as articles of the material of which they consist.

\*5.—When different machines are imported joined together in such a way that they cannot be weighed separately, the weight must be ascertained at the cost of the owner by some other means which the Customs regard as satisfactory. If they are joined by means of a common bottom-plate, this is to pay duty separately as the material, worked, of which it consists, provided it can be unfitted.

This provision in regard to the ascertainment of weight by some means other than direct weighing, shall apply also when the size of a machine renders the weighing apparatus available locally of no use in determining the weight.

\*6.—Unless otherwise specially provided, the amount of duty payable on machines, apparatus and parts thereof, which are chargeable by weight, must in all cases amount to at least 5% *ad val.*

On machines, apparatus and parts thereof, for which rates varying according to the weight or article are fixed, the duty may in no case amount to less than the amount payable on the most highly taxed articles in the group with the next lower weight.

INSTRUCTIONS TO BE OBSERVED IN APPLYING THE  
CUSTOMS TARIFF.

1.—Goods shall be assessed for duty in the state in which they are imported, but the following provisions shall be observed except where it has been otherwise provided in respect of certain articles.

Articles consisting of a mixture of components which are dutiable under various headings at different rates shall pay duty according to the provision in the Tariff applicable to the component paying the highest rate of duty. Component parts which are present in insignificant quantities only, and which have no essential effect on the nature of the goods, shall be left out of account unless they consist of spirit or ether, or there is reason for believing that they were mixed with the article with the object of preventing its paying duty at the proper rate.

Articles produced by some mechanical process which are combined from component parts dutiable under various Tariff headings at different rates of duty shall pay duty as a whole in accordance with their chief component, by which shall be understood the part which gives the goods their character (such as metal, glass, wood, &c.). If, however, the Tariff in its provisions relative to the chief component contains no mention of such a combination as the goods present, and also in case the chief component cannot be ascertained with certainty, the articles shall pay at the rate applicable to the component paying the highest rate of duty, but component parts which are required only for the practical use of the article, or which do not increase its commercial value to any sensible degree shall be left out of account. An article shall not be regarded as consisting merely for the reason that it contains such parts as nails or ordinary fittings, hinges, locks &c. which serve only to unite the different parts, to fasten it to some other object, or to increase its durability &c.

Composite articles, as referred to above, shall be dutiable as such even if they are taken to pieces when imported, and although some of the separate parts may be missing.

When the Tariff imposes the same rate of duty on parts of an article as on the article as a whole, or otherwise contains provisions in regard to the Customs treatment of parts of certain goods, such provisions shall apply only to objects which are unmistakably intended for use as parts of such goods; and

As manufactures gilt, silvered or chased with other metals, and also as enamelled, painted, printed, varnished or lacquered goods are to be included all articles which have undergone a process in question to any extent, however small, and as polished articles are to be included those which have been polished to a greater or less extent, so that the grinding marks are not visible.

2.—Duty when determined in the Tariff according to weight shall be calculated, unless otherwise specified, on the net weight of the goods, by which shall be understood their actual weight without packing. As regards articles imported packed, the net weight shall be determined, as a rule, by weighing the goods gross, without unpacking or otherwise

## IMPORT AND EXPORT CUSTOMS TARIFF.

## TARIFF IN USE ("TARIF D'USAGE.")

(In force January 1, 1906.)

NOTE.—The figures between parentheses in the body of the tariff after the designation of the goods refer to the duties of the General Tariff, and those in the column of "Rate of duty" to the "Conventional Tariff."

(For countries having Commercial Treaties see end of Tariff.)

When not otherwise mentioned goods are levied on gross weight. n.o.m. = not otherwise mentioned.

MONEY, WEIGHTS AND MEASURES. The monetary unit of Switzerland is the franc = 100 centimes. For weights and measures this country has adopted the metrical system; the quintal employed in the tariff is the metrical quintal of 100 kilograms.

| Law of March 7, 1912, prohibiting the importation, manufacture, &c., of artificial Wine and Cider.<br>( <i>Faulle fédérale</i> No. 11, of March 13, 1912.)   |  |  |
| Art. 1.—Artificial wine or cider is prohibited from being imported, manufactured, held, exposed for sale and sold but the manufacture and possession thereof for the requirements of a family are excepted from this prohibition.              |  |  |
| Art. 2.—Artificial wine shall be construed to mean:  |  |  |
| (a) All beverages similar to wine, either manufactured from raisins, pressed grape residues, wine lees, residues of the distillation of wine, fruits of tamarinds, figs, malt, or by mixing the constituents of wine, or by any other process; |  |  |
| (b) <i>Gallated</i> wines prepared in violation of the regulations enacted by the Federal Council;   |  |  |
| (c) Watered wines;   |  |  |
| (d) Mixtures of the beverages mentioned in letters a, b and c above with wine or wine must;  |  |  |
| (e) Mixtures of cider or berry-fruit juice, whether fermented or not, with wine or wine must.  |  |  |
| Art. 3.—Artificial cider shall be construed to mean:   |  |  |
| (a) All beverages similar to cider, wholly or partly manufactured with other materials than fresh pip fruits;  |  |  |
| (b) Cider watered to such an extent that it ceases to conform to the regulations enacted by the Federal Council for low-grade cider ( <i>piquette de cidre</i> ).  |  |  |
| The foregoing provisions do not apply to berry-fruit wine.   |  |  |
| Art. 5. Mixtures of substances destined for the manufacture of artificial wine and cider are prohibited from being imported, manufactured or held with a view of sale, or exposed for sale or sold.  |  |  |
| Art. 19.—The present Law shall enter into force on January 1, 1913.  |  |  |

|      |  | 40 00        |

N.B. ad. 129a.—The duty of 10 frs. is stipulated in express consideration of the Italian treatment relating to vermouth. It is clearly understood that if this treatment should be modified and the Italian export of vermouth be thereby placed in a more favorable position, the duty may be proportionately increased. The revised rate of duty would, in that case, be settled after previous negotiations between the two Governments.

Vermouth containing up to 18.5% of alcohol shall be considered as containing but 15%; above this limit the vermouth shall be subject to the monopoly duty in addition to the Customs duty. N.B. ad. 128, 129a and b.—Medicated wines of all kinds are included under No. 181.

## Monopoly Duties.

N.B. ad. 126-129a and b.—The importation of *trois-six* alcohol and spirits of wine is a monopoly of the Confederation.

| 1. Consignments gross weight of which = 50 kilograms or more   | 22 00         |
| 2. Consignments gross weight of which = less than 50 kilograms   | 27 50         |
| b. Containing 25 to 75 degrees inclusive, of alcohol:  |               |
| 1. Consignments gross weight of which = 50 kilograms or more   | 88 00         |
| 2. Consignments gross weight of which = less than 50 kilograms   | 110 00        |
| c. Containing 76 degrees, or upwards, of alcohol:  |               |
| 1. Consignments gross weight of which = 50 kilograms or more, fixed rate.  | 88 00         |
| Plus an additional monopoly duty for every degree above 75.  | 0 88          |
| 2. Consignments gross weight of which = less than 50 kilograms, fixed rate.  | 110 00        |
| Plus an additional monopoly duty for every degree above 75.  | 1 16          |

N.B.—In calculating monopoly duty, the import rates and extra duty on all kinds of products containing alcohol, fractions of 0.5 degree or less are ignored; those exceeding 0.5 degree are reckoned as one full degree.

|                           | N.B. ad. 338-340.—Bobbins of papier maché are dutiable under Nos. 297-340, as wooden bobbins; and other manufactures of papier maché, i.e., trays, boxes, buttons, insulating material, are included under the headings of the general tariff referring to the articles which bear most resemblance to them in the matter of use.                                   |

VII.—TEXTILE AND PLATING MATERIALS.—MADE-UP GOODS.

N.B.—Mixed yarns, tissues, plaits, coverings, carpets, ribbons and trimmings are, unless otherwise stipulated, dutiable as articles manufactured wholly of the component material subject to the higher duty.

However, in the classification for tariff purposes of tissues, coverings, carpets, ribbons, and trimmings, ordinary borders (sums, stripes, selvaes, &c.), threads or narrow strips marking the separating line between the several pieces; as well as ornamental threads which, though repeated at regular intervals appear only at intervals far apart and are of relatively very slight importance, are not taken into account either, even though they may be composed of more highly taxed materials.

Tissues, coverings &c. embroidered, of all kinds, are, unless otherwise specially stipulated, dutiable as embroidery according to the nature of the material upon which the embroidery is worked, whatever be the nature of the thread used for embroidering. Tissues less than 35 centimetres wide are dutiable as ribbons.

Preliminary note ad. VII. A.D.—The simplest manner to discern the difference between the fibres from animal produce (wool, silk, &c.) and vegetable fibres (cotton, flax, hemp, jute, &c.) is by combustion. To obtain a reliable result, it is necessary to free the fibres, by boiling, from any other heterogeneous substance, such as size, gum, colour, grease, &c. and also to free them from any dye by treating them in a weak solution of muriatic acid. Pure and dry vegetable fibres burn rapidly and are completely reduced to ashes, whilst animal fibres (wool, silk, &c.) carbonize without burning, curling themselves into small black knots and giving forth an odour of burning horn.

| 50 00                     | Having 20 threads or more in a square of 5 mm. side  |
|                           | N.B. ad. 360-363.—Warp and woof counted together. In tissues of double or twisted yarn each thread is counted separately.  |
|                           | Ad. 360-363.—Cotton tissues, unbleached or creamed, rendered water-proof only on one side by sizing.   |
|                           | N.B. ad. 360-363.—To ascertain whether unbleached and creamed cotton tissues weigh 6 kilograms, more or less, and more than 12 kilograms per 100 square metres, the following formula may be employed:   |
|                           | k = the weight of the piece of tissue.   |
|                           | l = the length in metres, and  |
|                           | b = the width in centimetres of the piece of tissue.   |
|                           | $k \times 10,000$  |
|                           | $l \times b$ = kilograms per 100 square metres.  |
|                           | Example:   |
|                           | A piece of cotton tissue 92 centimetres in width and 73 metres in  |

| Ad. 409-415.—Danish cut handkerchiefs without embroidery, plush, blinds of linen cloth without needlework (see ad. Nos. 557-559).  |   |  |
| N.B. ad. 405-415.—(1) For the purpose of assessing duty on tissues presenting alternately close-woven and open-woven parts, the average number of threads is taken. This number is arrived at by counting the threads in warp and weft between two points which are regularly reproduced in warp and weft in the design of the tissue; by reducing this number of threads to the proportionate number to 50mm. of the breadth of the design; and by adding together the results obtained for the warp and weft. In tissues woven of double or twisted threads, each single thread is separately counted. In the determination of the final result fractions of a thread are ignored. |   |  |
| (2) Linen pocket handkerchiefs with all round border, neither hemmed nor embroidered, are dutiable under Nos. 406-413 according to their degree of manufacture.  |   |  |

## XII.—MACHINERY, MACHINE TOOLS, VEHICLES AND VESSELS.

Note to Class XII. For statistical purposes, the customs have been instructed only to accept from Jan. 1, 1908, in respect to the goods specified in Class XII, such import declarations as contain, besides the particulars prescribed by the *tarif d'usage* (i.e., country of production, designation of the goods, net weight and number of pieces, gross weight, tariff number), the value of the goods delivered carriage paid to the Swiss frontier, exclusive of customs duty. The railway authorities, forwarding agents and others are requested in their own interests to strictly comply with this requirement so as to avoid delay in the customs formalities at the frontier.

## A.—Machinery and Machine Tools.

Parts of machinery, roughly shaped, weighing each:

|     |  |      |
|-----|--|------|
| 879 | 800 kilos. or more for hard (grey) cast iron, 250 kilos. or more for cast steel, 50 kilos. or more for wrought iron or steel; and the following articles without regard to weight: parts of boilers roughly shaped in wrought iron or steel, not riveted and without holes for rivets; pipes of wrought iron or steel, twisted, in spirals, coils &c.* | 0 60 |
| 880 | Less than 50 kilos. for wrought iron or steel†   | 2 00 |
|     | Ad. 879, 880.—Parts of machinery roughly shaped, other than the above mentioned, are dutiable as wares of hard (grey) cast iron, or as wares of iron, n.o.m.   |      |

N.B. ad. 879, 880.—Roughly shaped parts of machines of malleable cast iron are included in Nos. 893-899.

For roughly shaped parts of machines of copper, brass &c. (see ad. 833, 834).

|     |  |       |
|-----|--|-------|
| 881 | Steam and other boilers, steam and other reciprocating of all kinds, of iron; also parts of boilers put together, with or without cocks &c.*   | 5 00  |
|     | Ad. 881.—Pans (troughs, receptacles) of sheet iron or steel for technical use; boilers for steam or hot water heating of low pressure; feed-water heating tubes; over heaters; bent iron sheets, whether perforated or not, of all sizes; cylinders for liquefied gases. |       |
| 882 | Steam boilers and other apparatus of all kinds for industrial purposes, for cooking, evaporating, distilling, sterilizing &c. made of metals other than iron†  | 35 00 |
|     | Ad. 882.—Apparatus for distilleries, iron or steel, shall be classed in Nos. 894-898.  |       |
| 883 | Steam and electric locomotives; tenders* .....   | 10 00 |
|     | (Frs. 12 00)   |       |

|     |   |      |
|-----|---|------|
| 884 | Spinning machinery, including machinery for the preparation and transport of materials for spinning; twisting machines, including doubling and reeling machines; gassing and glazing machines; winding machines ..... | 4 00 |
|     | Ad. 884.—Porcelain rollers (spinning wheels), pots for spinning machines, even with wooden bottoms and metal hoops, rough or painted; yarn packing presses.   |      |

|     |   |             |
|-----|---|-------------|
| 885 | Weaving machinery: .....  | 1 00        |
| 886 | Looms .....   | (Frs. 8 00) |
|     | Other weaving machinery, such as reeling, warping, for dressing and preparing size, for dressing; machines for measuring and folding tissue; shaft and Jacquard looms and machinery ..... | 4 00        |
|     | (Frs. 10 00)  |             |

Ad. 886.—Needles, crochets, weights used for the Jacquard loom; card stamping and joining machines; looms for connecting and driving the warp threads; shuttles for weavers.

|     |  |       |
|-----|--|-------|
| 887 | Knitting machines, machines for making hosiery and for darning ( <i>remetteuses</i> ), knitting machines, lace-making machines ..... | 10 00 |
| 888 | Embroidering machines; threading machines .....  | 10 00 |

Ad. 888.—Frames for embroidering, crochets, andkerchiefs; spooling wheels for cylindrical bobbins; cross-thread spooling wheels.

## EXPORT TARIFF—continued.

Ad. 3.—Bones for the manufacture of manures and glue (hollow, &c., bones for the manufacture of buttons, combs, needles &c. come under No. 1 of the export tariff).

Note 1.—The exportation of wax and waxes matches made with white phosphorus is prohibited.

Note 2.—The statistical entries for exportation are not to be based on the above export tariff; they must be made, as for importation and transit, according to the rules established for the import tariff.

## PRESCRIPTIONS RELATIVE TO THE COLLECTION OF THE STATISTICAL FEE.

Article 14 of the Federal law of October 10, 1902, concerning the Swiss Customs tariff reads as follows:

"To control the merchandise passing the Swiss Customs frontier, the following statistical fees will be collected:  
1 centime per unit on merchandise declared by weight,  
1 centime per piece on merchandise declared by piece.  
The aforesaid statistical fee cannot be less than 5 centimes on every clearance or shipment.

Are exempt from this fee:

a. Merchandise paying a Customs duty;

b. Merchandise imported or exported in the frontier traffic or for small market trade, as well as packages sent through the post.  
The Federal Council is authorised to reduce the statistical fee collected in the railway traffic for complete wagonloads of one sole kind of goods, and to designate the class of goods to which the reduction of the fee shall be applicable, reserving however the right, at any time, to repeal the reduction granted."

This provision of the law must be construed as follows:

The unenumerated goods are liable to the statistical fee:  
1. On transit (release of debenture certificates): All goods, except those coming through the post, goods which have to pass in transit for short distances, and goods crossing foreign territory to re-enter Switzerland.

2. On discharge of passes: All goods, excepting those conveyed in the frontier traffic, in the small market trade, packages sent through the post and packages, empty sacks, and other receptacles forwarded from Switzerland, in transit through foreign territory to Switzerland.

3. On exportation: All goods, except the postal traffic, road metal, gravel, and in complete truck loads, rough quarry stones (Nos. 665 and 588) and articles liable to export duty: Scrap iron (No. 711), raw skins and hides (Nos. 172 and 173), bones (No. 165), rags and waste paper (No. 288).

4. On importation:

The following dutiable goods admitted free of duty.

Effects of immigrants (*objets de déménagement*).

Marriage outfit and effects proceeding from an inheritance.

Swiss goods re-entered unaltered from foreign countries, artistic articles for a public purpose, specimens of natural history and objects of industrial art, for public collections &c. (see N.B. ad. 326, 329 and N.B. n. 600, 701 and 1162).

Are exempt from this fee:

1. Merchandise upon which Customs duty has been paid.

2. Goods and animals liable to an import or export duty inferior to 10 centimes, and on that account admitted free, conformably to the Customs law.

3. Imported goods weighing less than 250 grammes and exported goods, the value of which is inferior to frs. 10.

4. Effects of travellers and alimentary provisions for the journey.

5. Carriages, boats, horses and other animals only crossing the frontier for the conveyance of persons or goods.

6. The small market traffic.

7. The frontier traffic.

8. Sample cards and cut samples in pieces, or quantities, unsuitable for any other purpose.

9. The transport of paupers and their effects.

10. Shipments through the post.

11. Goods which have to pass in transit for short distances owing to roads traversing the frontiers, such as boundary roads &c.

12. Goods forwarded from one Swiss frontier place to another across foreign territory.

The declaration referred to in that taken as a basis for the clearance and not that prescribed in the edition of *Usage* for the statistical entry.

13. Rough stones on exportation.

14. Empty casks, sacks &c. marked, according to 148 of the article. Regulations for the execution of the Customs law.

15. War material imported by the Confederation.

The carrier of the goods is responsible for the payment of the statistical fee.

Gravel and sand are exonerated from the statistical tax:—

(a) On importation;

(b) On exportation;

(c) On transit when travelling for a short distance only on Swiss or foreign territory, for instance through the enclaves.

Turkey. The Treaty of April 29, 1861, with conventional tariff annexed, expired on the 13 March, 1890. In supersession of this Treaty, both States have, by an exchange of notes, provisionally guaranteed to each other the most-favoured-nation treatment.

## TURKEY

The correctness of the information given in the following Tariff cannot be assured in consequence of the War.

For particulars regarding the Ottoman Territory (Constantinople, Anatolia, etc.), see end of tariff.

Pending the establishment of a uniform Tariff, Customs duties are levied on the value of goods as under:—

## IMPORTATION.

With the exception mentioned below as to gold and silver articles and precious stones and agricultural implements, all imported goods are liable to a duty of 11 %. This duty is levied according to the Valuation Tariffs, which are fixed by agreement between the Customs Administration and the principal merchants concerned, and they may be denounced by the Customs Administration, or by the merchants (or any one of them), not less than fifteen days before the lapse of the period for which they were framed. If not so denounced they remain in force for a further term. The importation of foreign tobacco can only be effected by the tobacco Administration.

(Official communication of October 3, 1908.)

By Circular of September 29, 1908, the Foreign Mission's have been informed that the prohibition to import into the Empire revolvers and cartridges thereto, also loaded sporting cartridges, has been cancelled as from July 31, 1908 (O.S.).

Revolvers with arms and ammunition and their accessories, their entry into the Empire will be prohibited, and in case of their arrival in the Empire, they will be dealt with according to the established rules.

All kinds of gun powder or dynamite appearing in manifests or smuggled into the country will be forfeited in accordance with rules and regulations in force on the subject, and the consignees will be liable to the fines imposed by such regulations. The consignment having been abolished as from the 14th July, 1908 (O.S.), books, writings and postcards arriving at a Customs will no longer be subject to that formality.

Further, printing material, electric machines and apparatus, and telephones need not be subject to examinations, but, on compliance with the Customs formalities, be admitted to entry.

Saccharine may be imported into Turkey only by licensed chemists, and in quantities of not more than 50 grammes at one time.

#### EXEMPTION OF AGRICULTURAL IMPLEMENTS.

(Official communication of Feb. 16, 1912.)

The following agricultural implements are admitted duty-free:—

Hushab.

By a Customs Circular issued about Dec. 1903 :

Raw hides and skins from contaminated countries, unless chemically treated.

It is also provided that there must be disinfection of certain classes of hides and skins as well as the lighters in which they are brought to land, and the persons who handle them.

From January 1, 1912, the importation of the following articles is prohibited:—Chlorate of potash, chlorate of soda, nitrate of potash, nitrate of soda, picrates, nitroglycerine, gun cotton.

Drugs containing as ingredients the articles prohibited by the foregoing paragraph, but necessary to be used in medicine, may be delivered to the consignees, with the authorization of the Grand Master of Artillery, in such quantities as shall be fixed by the Imperial School of Medicine for each pharmaceutical chemist and for each druggist.

Permission is granted, however, to import pills of chlorate of potash and other similar preparations in the form of specialities which cannot be used for the preparation of explosive substances.

The articles hereinbefore specified, if destined for industrial or agricultural uses, will be delivered to the consignees, with the authorization of the Grand Master of the Artillery, in quantities which will be fixed, prior to importation, for each importer, by the Ministers of Public Works and Agriculture respectively.

#### CERTIFICATE OF ORIGIN ON THE IMPORTATION OF GOODS.

All goods shipped from Europe to Turkey from and after November 1, 1911, must be accompanied by a certificate of origin. It may be written on the original invoice and must be legalized by the Commercial Court or by the Commercial, Customs, or Police Authorities at the port of shipment. The legalization by a Turkish Consul is unnecessary.

{ Sycthes with wooden handles are dutiable as tools and do not enjoy the exemption.

#### REGULATIONS AS TO CERTIFICATION OF INVOICES.

In accordance with the Customs regulations of the 1st/14th Aug. 1909 every invoice presented to the Customs with an import declaration must be in the original, and must bear the *written* signature of the foreign selling house or manufacturer by whom it has been made out. The Director General requires that this signature shall certify the authenticity of the invoice in the following form:—*Nous certifions que cette facture est authentique et qu'elle est la seule émise par notre maison pour les marchandises y mentionnées.*

#### MARKING OF WEIGHT ON BALES CONSIGNED TO TURKEY.

To facilitate the weighing and checking of goods, shippers to Turkey are asked to mark on all packages both the gross and net weights in kilograms.

#### SPECIAL IMPORT TARIFFS.

##### BULGARIA.

The following goods of Bulgarian origin are subject to an *ad valorem* duty of 8 %: sheep, lambs, goats, kids, swine, swine (hard and soft), ree, spelt, maize, barley, oats, millet, and wheat derived from these cereals. All Bulgarian goods not mentioned above and not prohibited (*see* above) are admitted free of duty.

##### GREECE.

The following goods of Greek origin pay the special rates mentioned below:—

|   |              |
|---|--------------|
| 1 Oiles, green or black, fresh or only salted, in cases, casks, bushels and sacks ..... | 15 piastres. |
| 2 Santorini cotton .....  | 10 paras.    |

| 4 Lemons and oranges .....  | 10 piastres. |

#### EXPORTATION.

Every article exported is liable to an *ad valorem* duty of 1 %.

#### PROHIBITIONS.

The exportation of the following articles is prohibited:—Auroga goats, Arabian thorough-bred horses and mares, ewes, goats, she-camels, and horses from the Vilayet of Tripoli (Africa). Antiquities. Hashish.

#### TRANSIT.

Goods in transit or re-exported within the prescribed time are liable to an *ad valorem* duty of 1 per cent. To this effect, importers who, after paying at the time of importation of their goods, a duty of 11 per cent., shall re-export the same within six months from the date of payment of such duties, may claim a refund of 10 per cent.

#### DUTY APPLICABLE TO GOODS SHIPPED BY SEA FROM PORT TO PORT OF THE EMPIRE.

Goods shipped by sea from one port of the Empire to another are subject to a duty of 3 per cent. *ad valorem*. This duty is applicable to all articles including wood.

#### IMPORTATIONS INTO CRETE.

A customs surtax of 3 per cent. is provisionally applicable to articles imported into Crete.

#### OTTOMAN TERRITORY (CONSTANTINOPLE, ANATOLIA, &c., &c.).

##### CUSTOMS REGIME AND IMPORT RESTRICTIONS.

The following notice shows the nature of the Customs treatment at present accorded to goods exported from this country to territories of the former Ottoman Empire. It is based on information received as a result of enquiries made in those territories. Generally speaking, imports into occupied territory (including Mesopotamia) pay 11 % *ad val.*—the rate of import duty applicable in Turkey before the war while imports into territory remaining under Turkish control are subject to the rates of a specific Tariff enforced in 1910. Certain particulars as to the restrictions in force on the export of goods from, or the importation of goods into, those territories are also given.

**CUSTOMS TARIFF.**—Imports from the United Kingdom into territory still under the control of the Turkish Government (including Constantinople) are subject to the rates of the Specific Customs Tariff brought into operation by the Turkish Government in September, 1910, which Tariff is now being applied provisionally with the approval of the Allied High Commissioners in Constantinople. The Tariff in question is a specific Tariff, duties being levied in gold piastres per unit of weight or measurement.

Excise duties are also levied on alcohol and alcoholic beverages, as follows:—

Alcohol imported for manufacture of beverages, 5 paras per litre and per degree.

Imported beverages above 12 deg. in alcoholic strength, 5 paras per litre and per degree in excess of 12.

**IMPORT PROHIBITIONS.**—The following articles are prohibited to be imported:—

Leaf tobacco.

Arms and munitions of war, gunpowder, dynamite and other explosives; loaded cartridges of all kinds; miners' fuses.

Cocaine not legally current in Turkey.

Opiate and its salts.

Used clothing.

It is understood that the same Customs duties and Customs control generally is applied at Turkish ports under Greek and Italian occupation (Smyrna, Adalia, &c.), as at ports under Turkish control.

#### MESOPOTAMIA.

**CUSTOMS TARIFF.**—Under a proclamation of March 14th, 1910, as subsequently amended, duty is leviable on all imported goods at the rate of 11 % *ad val.*, with the following exceptions:—

All goods imported direct by officers and men of the Mesopotamian Expeditionary Force for their own use or consumption; uniform, accoutrements and equipment which from their nature may only be used by the officers and men of the army (not including such things as khaki shirts, marching boots and camp furniture) .....

(To force July 17, 1911.)

**ARTICLE I.**—Customs duties shall be imposed according to the annexed tariff upon articles imported from foreign countries.

**ARTICLE II.**—Duty upon an article subject to *ad valorem* duty shall be levied according to the value thereof at the time of its arrival at the port of importation.

**ARTICLE III.**—With regard to articles the produce or manufacture of the regions which do not enjoy the benefit of special conventional arrangements, a benefit not exceeding the limits provided for in those arrangements may, by Imperial Ordinance designating the regions and articles, be extended to such articles, if necessary.

**ARTICLE IV.**—With respect to articles the produce or manufacture of the regions which do not enjoy the benefit of special conventional arrangements, a benefit not exceeding the limits provided for in those arrangements may, by Imperial Ordinance designating the regions and articles, be extended to such articles, if necessary.

**ARTICLE V.**—In respect of articles the produce or manufacture of the regions which do not enjoy the benefit of special conventional arrangements, a benefit not exceeding the limits provided for in those arrangements may, by Imperial Ordinance designating the regions and articles, be extended to such articles, if necessary.

**ARTICLE VI.**—The import duty on rice and paddy may, in case of failure of crops be reduced by Imperial Ordinance to a rate not falling below 40 sen per 100 *kin* for a period to be fixed by the Imperial Ordinance.

**ARTICLE VII.**—The following articles are exempted from import duty:—

Articles for the use of the Imperial household; articles belonging to chiefs of foreign states, their families, and suites, visiting Japan; arms, ammunition and explosives imported by the Army or the Navy; mineral oils other than the crude oils imported for use as fuel by the Army or the Navy, with a specific gravity exceeding 0-875 at 15 degrees centigrade; warships; articles for personal use of foreign Ambassadors and Ministers accredited to Japan and articles for personal use of the members of the Embassies and Legations in Japan of those countries which exempt from Customs duty the articles for personal use of the members of the Japanese Embassies and Legations in such countries, and articles for official use of the

Consulates in Japan of those countries which exempt from Customs duty the articles for official use of the Japanese Consulates in such countries; orders, decorations, medals, and badges conferred upon persons resident in this country; records, documents, and other papers; articles imported as specimens or objects of reference which are to be exhibited in Government or public schools, museums, commercial museums, or other institutions, and private technical schools; articles contributed for the purpose of charity or relief; Government monopoly articles imported by the Government; samples of merchandise which are only fit to be used as such; articles of value and tools and instruments of professional use as such travellers and are recognised as such by the Customs; articles sent back by persons changing their residences, provided that such effects have already been used; exported articles which are re-imported within five years without any change in the character of the articles at the time of exportation, excepting, however, alcohol, alcoholic liquors, sugar, and articles which were exempted from import duty or granted a drawback thereof under Art. VIII, or Art. IX; receptacles of exported goods designated by Ordinance when such receptacles are re-imported; fish, shell-fish, mollusca, sea-animals, sea-weeds, and other articles which are imported in the form of simple process, for aquatic products caught or gathered by vessels which set out for the purpose from Japan, and their manufactures; articles of simple process, provided that they are imported in the form of simple process, and attached thereto; articles for ships' use delivered in open ports to ships and vessels bound for foreign countries; wrecks and equipments of shipwrecked Japanese vessels; exported goods shipped by vessels which cleared Japanese ports, and brought goods on account of the shipwreck of such vessels; horses, cattle, swine, sheep and poultry, for breeding, and products of serum or vaccine against animal plague, imported by the State and Prefectures, and horses and cattle, for breeding, imported by associations of horse or cattle breeders.

**ARTICLE VIII.**—The following articles are exempted from import duty if they are to be re-exported within one year from the date of importation, provided that security corresponding in amount to the duty is deposited at the time of importation:—

Articles imported for the purpose of having work done thereon, which are designated by Ordinance; receptacles of imported goods, which are designated by Ordinance; articles imported for repair; articles imported for the purpose of scientific research; articles imported as articles for trial; samples imported for the purpose of collecting orders; articles imported for use in theatrical and other performances.

**ARTICLE IX.**—When articles designated by Ordinance have been manufactured with imported raw materials and are exported to foreign countries, the whole or part of the import duty on such materials may be refunded in a manner to be determined by Ordinance.

When manures designated by Ordinance have been manufactured with imported raw materials, the whole or part of the import duty on such materials may be refunded in a manner to be determined by Ordinance.

Any person who obtains or attempts to obtain fraudulently or illegally

the refundment mentioned in the preceding two paragraphs shall be dealt with according to the provision of Art. LXXV. of the Customs Duties Law.

ARTICLE X.—Imported manufactured articles which are furnished or fitted up in a vessel which is constructed in Japan are exempted from import duty if they are exported together with such vessel within two years from the date of importation, provided that security corresponding to amount to the duty is deposited at the time of importation.

ARTICLE XI.—The importation of the articles specified hereunder is prohibited:—

Opium and utensils for smoking opium, excepting those imported by the Government; counterfeit, altered, or imitation coins, paper money, bank notes, and negotiable papers; books, pictures, carvings, and other articles injurious to public security or morals; articles which infringe rights in patents, utility models, designs and trademarks and copyrights.

NOTE.—The unit of the rates of specific duty is yen.

# APPENDIX.

## Supplementary Explanations on Certain Points. (Treaty with Great Britain)

The following explanations were also given by the Japanese Ambassador with regard to certain items and notes of the new Japanese Tariff of Japan:

1. Those cotton tissues which are known in the trade as "scoured" or "washed" tissues will not be dutiable as "bleached tissues" so long as natural colour is retained.
2. Note 4 of Group IX. of the Japanese Tariff is intended to apply to the counting of threads constituting such tissues as have figures, stripes or other designs. In case the number of threads is unequal in different parts of one piece, owing to imperfections in weaving, the mean of the number of threads in several parts of the tissue will be taken for the purpose of tariff classification. Fractions of threads, that is, threads which touch one of the sides of the counting-glass along its whole length will not be counted.
3. "Elementary threads" in Note 4 means single threads—for instance, a two-fold yarn would be counted as two threads, and not as one thread—and does not mean those particular threads in the body or bulk of the cloth which are commonly known in England as "elementary threads." Consequently, in counting threads in tissues which have a design or border, the "elementary threads" would be counted wherever they happen to be most numerous, whether it be in the design or border or in the body of the tissue.

As regards Note 5, the correct interpretation is that a figured tissue, such as would pay duty under No. 298 (8), is one which has a design or repeat constituted by interlacing more than twenty warp threads with more than twenty weft threads. For the purpose of counting the said threads, twisted yarns consisting of two or more single yarns, or yarns put together to act as one, would be counted as one thread. It is clear, however, that this method of counting will only be used in ascertaining whether a tissue should pay duty as a figured tissue or not, and not for the purpose of counting threads as set forth in Note 4.

4. The term "iron" in No. 162 of the new Japanese Customs Tariff includes both iron and steel.

5. Caustic soda produced on a manufacturing scale and being the ordinary caustic soda of commerce, such as that styled 60%, 70%, and 76-77%, will not be classed as refined, and will be subject to duty under Tariff No. 163 (2).

## Explanations on Certain Points. (Treaty with Germany.)

As regards Group IX of the Japanese Statutory Tariff: "The quality of the selvages is not taken into consideration in assessing duty, save in cases when they are expressly made for the purpose of ornamenting the main tissue."

As regards Group XVI of the Japanese Statutory Tariff: "In case all the parts of an unfitted machine are imported at the same time, the aggregate import duties to which they are liable are not to be higher than the import duty to which the fitted machine would be subject."

"In case all the parts are not imported at the same time, provided proof be furnished that such parts when put together make up one and the same machine."

As regards No. 580 of the Japanese Statutory Tariff: "Dynamos combined with motive machinery, if imported separately are to be dutiable, at the option of the importer, at the rates laid down for separate machines."

## DRAWBACKS.

Article IX. of the Customs Tariff Law provides for the refund of the whole or part of the duty levied on the raw material used in the manufacture of goods for export.

The following schedule, showing the drawback rates allowed by the Japanese Government, is based on the Imperial Ordinance No. 265 of September 28, 1906, as amended by the Imperial Ordinance No. 197 of July 13, 1911. In the case of specific drawback rates allowed on sugar and oils of soy beans, seeds of *Perilla occimoides*, and rapeseed the rates are based on the quantities of raw material employed in the manufacture of the finished products exported; in the case of all other articles the drawback rates are calculated on the quantities of raw material actually contained in the finished products exported. For *ad valorem* rates the value is calculated from the duty levied upon the importation of the raw material actually contained in the finished products exported. No domestic raw materials may be used in the manufacture of oils of soy beans, seeds of *Perilla occimoides*, or rapeseed, on which a drawback allowance for imported raw material is claimed; similarly in the case of refined sugar, domestic raw materials may be used only after the permission of the proper authorities has been obtained.

Application for the refunding of duty on imported raw materials must be made at the custom house through which the manufactured article has been exported. Application for drawback allowances on the raw materials included in Class II. must be made within the following time limits: For materials included under No. 1, one year; under Nos. 2-7, two years; under No. 8, three years. In the case of the material included under No. 8 the time limit may be extended for another year if the proper authorities should consider it necessary to do so.

The new schedule went into effect July 17, 1911. In the case of articles included under Class I., exported before June 30, 1912, the drawback rates are to be calculated in accordance with the schedule of September 28, 1906. In the case of raw materials included under Class II., imported before the new schedule went into effect, the drawback allowance is to be based on the old schedule, and no duty is to be refunded for raw materials not included in the old schedule. The refund of duty on imported olive oil used for preserving fish shall be made in accordance with the old schedule, provided the authorisation for the use of such oil had been obtained from the proper authorities prior to the date on which the present ordinance went into effect.

## I.—ANNEXATION OF COREA TO JAPAN.

A Treaty concluded on the 22nd August, 1910, between Korea and Japan, whereby the complete annexation of Korea to the empire of Japan.

The Treaty took effect from the day of its promulgation on the 29th August, 1910.

Independently of any conventional engagements formerly existing on the subject, the Imperial Government of Japan will, for a period of ten years, levy upon goods imported into Korea from foreign countries or exported from Korea to foreign countries, and upon foreign vessels

of the open ports of Korea, the same import or export duties and the same tonnage dues as under the existing schedules.

The same import or export duties and tonnage dues as those to be levied upon the aforesaid goods and vessels will also, for a period of ten years, be applied in respect of goods imported into Korea from Japan or exported from Korea to Japan, and Japanese vessels entering any of the open ports of Korea.

The Imperial Government of Japan will also permit for a period of ten years, vessels under the flags of Powers having treaties with Japan, to engage in the coasting trade between the open ports of Korea, and between those ports and any open ports of Japan.

The existing open ports of Korea, with the exception of Masampo, will be continued as open ports and, in addition, Shin-Wiju will be newly opened, so that vessels, foreign as well as Japanese, will there be permitted and goods may be imported into and exported from those ports.

—DECREE OF THE GOVERNOR-GENERAL OF COREA RELATING TO CUSTOMS DUTIES IN COREA.

(Promulgated August 29, 1910.)

ART. I.—Articles imported into Korea from foreign countries and exported from Korea to foreign countries shall, for the time being, be subject to import and export duties at the same rates as those hitherto in force.

ART. II.—Articles imported into Korea from Japan proper, Formosa and Karafuto shall for the time being, be subject to import duties at the same rates as those hitherto in force.

ART. III.—Vessels entering Korea from foreign countries and from Japan proper, Formosa and Karafuto shall, for the time being, be subject to tonnage dues at the same rates as those hitherto in force.

ART. IV.—Goods imported into or exported from Korea, and vessels entering or clearing at any of the Korean ports shall, for the time being, be treated according to the same regulations as those hitherto in force respecting the treatment of such goods and vessels.

Supplementary Provision.—The present ordinance takes effect from the date of its promulgation.

MONEY.—Same as Japan.

## CUSTOMS LAW OF 268 FEBRUARY, 1903

## CHAPTER I.

Art. 1.—The present code of regulations determines the customs duties in the Persian Empire.

Art. 2.—All articles, merchandise and produce (excepting such as are exempted from duty) are subject to duty whenever they are imported or exported, unless it be proved to the satisfaction of the Customs Board that the duties on such articles, merchandise or produce have already been paid on the occasion of some previous importation or exportation.

Art. 3.—The merchandise imported into Persia and coming from a country enjoying "most-favoured-nation" treatment is subject only to the payment of the customs duties fixed by the tariff legally in force, and the dues enumerated in Art. 7 of the present Code of Regulations.

All other imposts or dues, such as octroi, "Khanak," "Meydan" and like, are abolished for all time. All the dues of "raghdari" that have been collected hitherto for the maintenance of roads are likewise abolished, nor shall any new ones be established, under the form of road imposts, except on carriage roads, which necessitate the employment of skilled labour, and for which a concession has already been granted or hereafter to be granted by special Firman.

Art. 4.—The duties levied on goods, otherwise than *ad valorem*, are calculated on the basis of the number, weight or measure, as determined by the officials of the Customs Board.

In the case of goods upon which the duty is levied *ad valorem*, such duty is calculated on the value declared by the parties concerned in accordance with the rules laid down in Art. 17, 18 and 19 following.

Art. 5.—Customs duties are payable in cash prior to the removal of the goods.

Art. 6.—The goods are held as security for the customs duties, nor can the customs officer in any case consent to the removal of the goods before the said duties as well as the other dues fixed by Art. 7 have been paid.

## CHAPTER II. The Customs Tariff.

Art. 7.—The duties to be collected by the customs are as follows:—

- (1) Customs duties on goods imported. (*Droits d'Entrée*.)
- (2) Customs duties on goods exported. (*Droits de Sortie*.)

(3) *Office dues*.—The office dues, apart from the customs duties, are fixed at 2 kranas per sheet of the declaration, application, request or other document whatsoever, presented to the customs by the parties concerned.

(4) *Seal and label dues*.—For each lead seal affixed by the customs officers shall be 3 chais, and for each wax seal 1 chai.

For each check label affixed by the customs on the packages, bottles, or other receptacles containing merchandise subject to this formality, the charge shall be 1 chai, and for each check label affixed to parcels examined in order to permit of their being removed from the customs, 5 chais.

(5) *Dues for the custody of goods in custom-house storage rooms, sheds and enclosures, and in the storage rooms of public warehouses*.—Goods deposited in storage rooms, sheds and enclosures where the customs assumes the responsibility for their safe keeping (see Art. 39 and following) are subject to warehouse dues.

These dues are reckoned for the whole of the time during which the articles lie on customs premises, dating from the day of their inspection, and in any case from a day not later than the last of the term fixed for the presentation of the documents of inspection.

Merchants are entitled to request that their goods be deposited according as they may desire, either in the storage rooms or in the sheds, or simply in the enclosures of the custom-house under (tarpaulin, &c.) covering or without covering.

Exception however is made in the case of: (a) Parcels containing articles of value, such as objects composed partly of gold or silver, jewels, watches, silk fabrics, also all small parcels weighing less than 2 batmans which must always be deposited in the closed storage rooms. (b) Goods which are readily inflammable, dangerous, noxious, or such that their proximity might cause injury to other goods; such goods shall not be admitted to the storage rooms and can only be accommodated in the sheds or the enclosures.

The warehouse dues are fixed as follows: (a) For goods deposited in closed storage rooms: (1) for carpets, woven fabrics, threads, clothing, groceries, liquids intended to be drunk, tea, coffee, food products and furniture—for the first 30 days dating from the day fixed as above, 6 chais per 10 batmans with a progressive increase of one-fifth chai per day until the sixth day; (2) for other goods deposited in closed storage rooms the dues are at the rate of one-third of those stated under (1).

(b) For goods of all kinds deposited in sheds or under (tarpaulin, &c.) covering the dues are at the rate of one-fifth of those stated under (1).

(c) For goods not covered (with tarpaulin, &c.) and deposited in unroofed premises as well as for naphtha and petrol, the dues are at the rate of one-tenth of those stated under (1).

At the expiration of the term of 90 days the goods must be transferred from the storage rooms of the custom-house of entry to those of a bonded warehouse.

Goods deposited in the storage rooms of public bonded warehouses are subject to the payment of dues at the rate of one-sixth chai per day and per 10 batmans of goods in respect of their custody in the said storage rooms.

(6) *Dues for the handling of goods*.—These dues are fixed by a special tariff to be agreed upon between the customs and the parties concerned.

(7) *Dues for use of cranes belonging to the customs*.—In those ports where there are cranes owned by the Government, dues are charged for the use of such cranes at the rate of 1 chai per 100 batmans, with a maximum of 1 chai per period.

(8) As compensation for the expense incurred by the Customs Board for the supervision of bonded warehouses, proprietors of such warehouses shall pay a charge of 5 kranas per working day on which the attendance of customs officers has been necessary.

(9) It is to be understood that in the case of the above-named dues, the amount payable shall never be less than 1 chai, and that any fraction of a chai shall always be counted as a whole chai.

Art. 8.—In the event of the exchange rate of the kran in relation to the French franc falling by more than 10 per cent, and continuing at such low rate for more than a month, the Persian Government shall have the right, after the fact shall have been confirmed by the principal banks, to raise proportionately the rates of the specific duties as fixed by the tariffs in force.

In the event of a rise in the rate of exchange of the kran exceeding 10 per cent, and of such rate being maintained for more than a month, any proposal for the proportional reduction of the said tariffs shall come from the foreign countries interested and the Persian Government shall be bound to grant the said reduction.

Art. 9.—The specific duties inscribed in the tariff shall be levied in full on the quantities presented for importation or exportation, without any reference to the quality, the relative value, or to the state of the merchandise.

Where, however, satisfactory proof is forthcoming as to occurrences whereby the goods have suffered deterioration in the course of transport, and where it is seen that there is no fraudulent intent, the declarer or owner may demand the sorting out and destruction, or else the re-exportation, of the damaged goods.

*Remark*.—Furthermore, in exceptional cases, especially where the goods have been damaged in course of transport, reductions of duties, in proportion to the loss of value, may be accorded, not only with the intervention of the Central Customs Board.

Art. 10.—In the case of goods tariffed by number, or by ascertained weight, the amount of duty payable when greater or smaller quantities are being dealt with, shall be proportionate to the rates set forth in the tariff, just as if this proportion had been specified for each article. The duties are levied in the same proportion in the case of goods tariffed according to value.

Art. 11.—The unit of weight for goods tariffed by weight is the batman, called the Tauris batman of 640 Persian miscalis, equivalent to 727 Russian lbs. and to 2 kilos. 970 French grammes.

Art. 12.—The duties on such goods as are stated in the tariffs to be dutiable according to the gross weight, are calculated on the real weight of the goods, including the weight of such packings as, according to the usages of commerce, reach the buyers together with the goods, e.g., the cans, kegs, bottles, jars or flasks containing liquids, pots and boxes, paper or cloth envelopes and packings of any other kind, which cannot be separated from the goods without damaging them or changing the form under which they are generally presented for wholesale or retail trade.

Art. 13.—As regards the other goods which are dutiable by weight, and which are not mentioned in the tariff as being dutiable according to the gross weight, the importers shall be required to stipulate in their declaration whether they desire that the duties be reckoned according to the real net weight, i.e., according to weight of the goods stripped of all packings; or according to the legal net weight, i.e., according to the combined weight of the goods and all their packings, after deduction of the legal tare.

Where no such choice is stated in the declaration, the duties shall always be calculated according to the legal net weight.

Art. 14.—The legal tare on goods tariffed by weight is fixed as follows:—

(1) For earthenware, porcelain, glassware, unframed mirrors and window glass, 40 per cent. of the aggregate gross weight.

(2) For all other goods: (a) in chests or casks, 20 per cent. of the aggregate gross weight; (b) in hampers, "canisters" or other leather packings, 8 per cent. of the aggregate gross weight; (c) in matting, sacks or other similar packings, 3 per cent. of the aggregate gross weight.

The tare is not applicable to packings which only partially cover the goods, as, for example, those consisting of trellis-work, boards, &c.

The declarers are required to present the goods for examination, stripped of their packings, and are also required to repack them, the Customs Board assuming no responsibility for any loss or damage resulting from such operations, it being understood that these have been carried out under the instructions of the declarers.

If, however, the declarers should present the original invoices or accounts of the manufacturers or wholesale dealers, or statements specifically describing the nature, weight and value of the goods contained in each parcel, the customs authority shall deem it sufficient to take into the purpose of examination only one or more parcels (according to the importance of the consignment) and to cause the same to be opened.

But if it should be found that the kind, weight or value of the goods, as ascertained by this sample inspection, differs to an extent exceeding 5 per cent. from the kind, weight or value as returned in the declaration, the customs shall require that all the parcels be opened.

Art. 16.—In the case of all products imported or exported in bulk, the importer or exporter shall give the net weight in the prescribed declaration.

In the case of goods, free of duty, imported or exported in parcels, the importer or exporter shall declare the gross weight of the parcels, the customs officials will estimate the net weight by deducting from the gross weight the tare fixed by Art. 14.

Art. 17.—In the case of goods tariffed according to value, the importer shall state in writing the value upon which they desire the duties to be calculated.

Art. 18.—Where goods of different value are contained in one and the same parcel, the importer shall declare their values separately, if they are tariffed according to value.

Where, however, the goods in question consist of haberdashery or similar wares, which are somewhat akin to each other, or which form an assortment, the value of which does not exceed 100 tomans, it will be sufficient to declare the total value.

Art. 19.—The value to be declared at the custom-house is that of the goods in their place of origin or production, increased by expenses of packing, purchase, assurance and transport to the place of importation or exportation.

Art. 20. If the customs authorities consider the declared value to be insufficient, they may at their discretion, require the declarers to sign a supplementary declaration, or they may even retain the goods, paying to the persons concerned the value which they themselves have declared, with an additional 10 per cent. as indemnity.

The customs shall make the said payment as soon as possible, and not later than 15 days after the time when the pre-emption shall have been notified to the declarers.

Art. 21. If the person concerned should so request, the goods pre-empted may be returned to him on payment of the additional duties and the costs together with a fine, the amount of which shall be fixed according to the circumstances by the Collector of Customs of the District, or upon appeal, by the Central Board.

This fine shall not exceed 10 per cent. of the difference between the price of the goods as declared by the owner and that estimated by the customs.

Art. 22. Goods pre-empted, which have not been restored to the persons concerned, shall be sold for the benefit of the Government. The sum paid to the persons concerned, as also the duty and costs, shall be deducted from the total sum realised by the sale, and the surplus, if any, shall be paid into the State Treasury.

Art. 23. In the event of changes in the tariff, the tariff to be applied shall be that in force at the time of registration of the goods at the first import or export custom-house.

Art. 24. In the event of presentation for import into Persia, of goods, the classification of which cannot be precisely determined, or which have not been mentioned in the tariff, the Central Customs Board may order that for the purposes of the tariff, such goods be treated as belonging to the class to which they are nearest akin.

Art. 25. All dispute concerning the application of the import or export tariff, which arise between the persons concerned and the customs officers, shall be judged, in the first instance, by the Provincial Collector of Customs through the intervention of the Consul of the Power of which the owner of the goods is a subject, or of the deputy of such Consul.

It shall always be open to the latter to appeal against the decision arrived at, in which case the dispute shall come before the Central Customs Board at Teheran, where final judgment shall be given at the intervention of the Minister representing the Power of which the owner of the goods is a subject, or at the intervention of the deputy of such Minister.

Art. 26. Whenever the examining officers of the customs are in doubt as to the nature or quality of any article of merchandise submitted for their examination, they shall defer the admission of the said article, having first referred the question to the Local Collector of Customs. These officers shall take a sample of the goods in question, and the said sample, together with a report furnishing all the data necessary for the purpose of solving the difficulty, shall be forwarded to the Provincial Collector of Customs within whose jurisdiction the decision of the question lies.

Should it be recognised, however, that the declaration has been made in good faith, the person concerned shall be authorised, if he make application to that effect in writing, to take immediate possession of the goods, provided that he deposit a sum equal to the highest duty the customs may deem applicable to such goods, and provided further that he undertake to comply in all respects with whatever decision may have been arrived at after the dispute shall have been adjudicated upon in conformity with the procedure set forth in the preceding Article.

#### CHAPTER III.—Exemptions from Customs Duty.

Art. 27.—In addition to the goods which are declared by the tariffs to be exempt from customs duty, the following also are dispensed from the payment of such duty:

(1) Articles imported from abroad or exported thither on behalf, and by order, of His Majesty the Shah.

(2) Camels or other beasts of burden, as also tents, carpets or other articles necessary for persons travelling towards, or returning from, holy places, provided such articles be really their personal property, and not trading stock.

(3) Articles imported for the personal use of the representatives of foreign Powers accredited to His Majesty the Shah. The privilege of this exemption is extended also to the staffs of such Missions, that is to say, to the councillors, secretaries, interpreters and Student Interpreters attached to the Embassies or Legations, as well as to the professional members of the Consular Corps, Consuls, Vice-Consuls and their interpreters or foreign secretaries, duly accredited to the Persian Government. In order to be admitted as free of duty, the consignment must be accompanied by a declaration from the addressee, specifying the numbers and the marks of the articles, and also, if possible, their quantity and value.

The addressee must also certify on such declaration that the articles are for his personal use.

In localities where different grades of officers of the Diplomatic or Consular Corps reside, such statement must be signed by the chief of such Mission or Consulate.

This declaration must be accompanied by an import permit for use at the customs frontier, which shall, as a rule, be of a cursory nature, that is to say, limited merely to the external identification of the parcels and their marks.

Where, however, there is grave suspicion of abuse, the parcels may be retained, and the Local Collector of Customs shall refer at once to the Central Board, which shall decide as to their admission, having previously arrived at an understanding with the Minister or the representatives of the country concerned.

Whatever doubts may be entertained, foreign official seals shall be respected.

All these advantages and privileges shall pertain only to the Diplomatic or Consular Officers of countries where the Diplomatic and Consular Officer of His Majesty the Shah enjoy in this respect the rights of the most favoured nation. Similarly, all correspondence letters, whether containing value or not, and postal parcels of the Embassies, Legations and Consulates of foreign Powers, coming from, or sent, abroad by post, or by special messenger, shall be exempt from all inspection.

It is to be understood, however, that the exemption from inspection shall not extend to any bags, envelopes or parcels not bearing official seals, which messengers of Legations or Consulates may take with them.

(4) The luggage of travellers, including clothes and personal effects for the use of such travellers, with the exception of new articles and of those which might be considered as trading stock.

Without an authorisation from the Central Customs Board, this exemption shall not apply to luggage imported more than two months after the arrival of the traveller himself.

Foreign travellers, provided with a passport in due order for the crossing of the frontier, are authorised to import, free of duty, such quantities of provisions or articles as are intended for their personal use, but the total amount of the exemption per passport shall not exceed 2½ toman.

(5) Clothes, body linen, bed linen and table linen, as also articles of furniture of all kinds (but not drinks, produce, merchandise or trading stock imported by persons coming to settle in Persia), provided such articles be not new and bear evident marks of wear.

(6) Cattle led by foreigners as frontiers on the lands situated on the territory of the Empire near the frontiers, and cattle led by the inhabitants of Persia to pasture on the lands situated on the frontiers outside Persia.

(7) Merchandise of native origin or manufacture, returning from abroad either because it has been refused or not sold there, or because it has not been admitted owing to a prohibition or to some other unavoidable hindrance.

(8) Bags containing postal despatches or correspondence, with the express exception of bags or packages containing parcels-post or sample-post, are free from inspection and other customs formalities, provided they be closed and sealed by a foreign post office and remitted to the officers of the postal administration of Persia.

#### CHAPTER IV.—Prohibitions.

Art. 28.—Importation of the following articles is prohibited:—

(1) Fire-arms of all kinds.

(2) Ammunition for all kinds of fire-arms, such as powder, cartridges, percussion caps, projectiles, &c., as also, in general, all simple or compound explosive products having a detonating power equal to, or greater than, that of ordinary gunpowder, with the sole exception of fireworks.

(3) Money, other than of gold or silver.

(4) Dry or liquid aniline dyes, also all dry or liquid dye in which aniline forms an ingredient.

(5) Books, papers, prints, writings, images, emblems and any articles whatever of a seditious character, or contrary to religion or good morals.

Art. 29.—Exportation of the following articles is prohibited:—  
Coloured dyes by means of aniline dyes or by means of dyes in which aniline forms an ingredient.

Art. 30.—Irrespective of the prohibitions mentioned in Art. 28 of the present Code of Regulations, the importation or exportation of other goods may be prohibited, either in the interests of the safety of society, or in order to prevent the exportation of products which it might be necessary, for the time being, to hold in reserve in order to assure the public food supply.

Art. 31. The Saadé-Azam, or Prime Minister, is also authorised to grant, in special cases, exemption from Art. 28, which forbids the importation of fire-arms, ammunition and explosives.

Such such authorisation, conformably to the notes appended to Nos. 3 and 35 of the Tariff (A), shall stipulate the amount of the exemption dues to be paid to the import custom-house, and, as regards explosives, the precautions to be observed by the persons concerned in effecting the transport of the same across country.

Art. 32. All importation, as well as all exportation, or attempted exportation, in contravention either of Arts. 28 and 29, or of a special Order issued in accordance with Art. 30 of the present Code of Regulations, shall involve the seizure and the confiscation of the goods.

Furthermore, where goods, prohibited for import or export, have not been declared or regularly presented at the custom-house, or where the said goods have been concealed amongst other goods or in any other manner whatever, the transporters or declarers shall incur conjointly, and subject to the right of any of them to recover from the others, a fine equal to the value of the goods, independently of the seizure and confiscation of the prohibited goods as well as of the goods which have served to conceal them. In the case of importation or exportation by routes not leading to a Custom-house, the fine shall be double the value of the goods, whether by means of transport, ships, boats, beasts of burden or mules, as well as of the other goods imported or exported at the same time, shall be confiscated.

Furthermore, those persons who are the authors or accomplices of such fraud shall be punished with one year's imprisonment.

Art. 33.—The means of transport, ships, boats, or beasts of burden, which have served for the importation or exportation of prohibited goods shall be specially distrainable for the fines incurred in virtue of the preceding Article; and in default of payment of the said fines not later than 31 days after the discovery of the fraud, they may be sold to the amount of the sum due.

Art. 34.—Any persons against whom it shall in any way be proved that they have participated in the importation or exportation of prohibited goods, whether by ordering, buying or selling such goods, or in any other manner, shall be liable to the same penalties as those who have directly violated the prohibition enacted by the present Code of Regulations.

The value of the confiscations and the amount of the fines thus incurred shall be recoverable on all the property, movable or immovable, owned by the guilty persons. The presentation to be undertaken in virtue of the present Article shall be notified officially to the delinquents not later than two years from the day on which the unlawful act was committed.

Art. 35.—The goods distrained or confiscated in virtue of Arts. 32, 33 and 34 of the present Code of Regulations shall be sold for the profit of the Imperial Treasury, with the exception of:—

(1) Aniline dyes, also papers, books, prints and images contrary to religion and good morals.

Such articles shall always be burnt or destroyed publicly, not later than the day after their seizure, in presence of the Collector of Customs, the Governor or his deputy, and of any other persons whom it may have been possible to call together.

An official record of the destruction shall be drawn up on the spot and

aid by all the persons present. A copy of this record shall be sent to a person against whom the seizure has been effected, and another forwarded immediately by the Collector of Customs to the Customs Board (Teheran).

Art. 36.—Money, other than of gold or silver, fire-arms and ammunition for the same, shall be sent, as soon as possible, to Teheran, to the address of the Central Customs Board for transmission to the Imperial Palace. Art. 36.—Any official or employee of the Government who shall be convicted of having permitted, tolerated or in any way favoured the importation or exportation of prohibited goods shall be punished with imprisonment for a term not exceeding one year, according to the gravity of the offence. Further, his property, movable and immovable, shall be subject to distraint for the payment of a sum equal to double the amount of the fines any confiscations declared by the preceding Articles to be incurred by the authors of similar frauds.

Art. 37.—Rewards in money, to be provided out of the amount of the fines and confiscations, may be granted by the Customs Board to officers and employees who shall have discovered or proved any contraventions of the present Code of Regulations, and also to any person who shall have given information to the Board in consequence of which such contraventions may have been discovered.

Art. 38.—Any contravention of Arts. 28, 29 and 30 of the present Code of Regulations shall be notified by a declaration drawn up in duplicate and signed by not less than two employees, and such contraventions shall be followed up at the suit of the Customs Board, which shall be competent to collect the fines and the amounts of the confiscations, and to effect the corporal penalties incurred. One of the copies of the declaration shall be handed to the principal delinquent, who shall sign or seal an acknowledgment of receipt of the same, and the other shall be sent as on as possible to the Customs Board, which shall be competent to allow reduction of the penalties, if there be circumstances which justify the exercise of clemency.

## CHAPTER V.—Concerning Imports.

## (General Rules.)

Art. 39.—No goods shall be imported except at places where Custom-houses are established for the collection of import and export duties in conformity with the table herewith annexed.

The suppression of an existing Custom-house or the establishment of a new one shall be effected by a special decree which shall be brought to the notice of the Legation concerned.

Art. 40.—At the import Custom-house, the importer shall forward to the Local Collector of Customs a written declaration in duplicate, either in Persian or in French, drawn up after the model annexed to the present Code of Regulations and containing an accurate description of the goods.

This declaration shall specify:—

(1) The country of origin of the goods, and the place from which they have been consigned and, if they are imported by ship or by boat, the name, nationality and place of departure of such ship or boat, as also the name of the captain or master.

(2) The number, nature, marks and distinguishing numbers of any parcels imported.

(3) The nature of the goods contained in such parcels, as also the nature of any goods loaded in bulk, the weight or measure of the goods, their value, and the place to which they are being sent.

(4) Every Customs declaration must be signed or sealed. If, however, the person concerned should be illiterate, the declaration may be made out for him by some other person who, in such case, shall certify the authenticity of the seal or sign affixed by the declarer.

In the case of small quantities of goods, however, the Custom-house is empowered to accept verbal declarations.

MOROCCO

CUSTOMS TARIFF.

The customs duties collected in Morocco are those resulting from the Treaty which that country concluded with Germany on June 1st, 1890, and from the Franco-Moorish Convention of December 21st, 1892. They are indiscriminately applied, whatever be the country of origin.

IMPORTATION.

All goods of foreign origin shall, on their entry into Morocco, pay a special tax of  $\frac{2}{3}$  % *ad valorem*. In addition an import duty of 10 % *ad valorem* is, as a general rule, levied on goods.

The value of the goods is established according to their wholesale price, in cash, on the market of the port where they are discharged.

The following goods shall, exceptionally, be dutiable at the rate of 5 % *ad valorem*:—Tissues of silk, pure or mixed, jewellery of gold and silver, precious stones and imitations of the same, galloons of gold, wines of all kinds, liquids, distilled, of all kinds, alimentary pastes.

The following articles shall, on importation through the ports of the French zone in Morocco, be exempted from the Customs duty of 10 % *ad val.* but continue to be subject to the special tax of  $\frac{2}{3}$  % *ad val.*:—Seed-sowing machines, manure distributors, ploughs, ridge ploughs, barrows, rollers, scythes, sickles and cultivators of all kinds, chaff-cutters, root-cutters, sickles and rakes, forage presses, reaping machines, threshing machines and motors to operate them (both being imported at the same time), winnowing machines, shellers, seed crushers and flatteners, sprayers and apparatus for treating with sulphur, irrigation pumps and windmills to operate them (both being imported at the same time), casks for watering, ploughs without mould boards, and motors to operate them (when the combined apparatus is imported at one and the same time).

FRANCE AND ETHIOPIA.

Extract from the commercial treaty between France and Ethiopia, promulgated by Decree of Jan. 30, 1909:—

French goods imported into the Ethiopian Empire are liable to a duty of 10 % on their market value in the place of destination, but wines, champagnes, beers and non-alcoholic liquors shall only pay 8 %.

Tobacco.

Monopoly.

The monopoly rates of import duty on tobacco are as follows:—

|                       | Hassani<br>Dollars.† |
|-----------------------|----------------------|
| Leaf tobacco          | per kilo. 0 20       |

| Cigars and cigarettes | " 0 50               |

In addition, imported tobacco is subject to a surtax of  $\frac{2}{3}$  % *ad val.* and to a supplementary monopoly duty at the rate of 7½ Hassani dollars per kilo. of cut tobacco or per 1,000 cigarettes, and 4½ Hassani dollars per 100 cigars.

DECISION OF HIS SHEREFIAN MAJESTY GRANTING TEMPORARY FREE ENTRY OF CERTAIN PACKING MATERIAL FOR THE EXPORT OF GOODS.

(Official Communication of Dec. 22, 1911.)

ART. 1.—With a view to developing business within his Empire, His Sheriefian Majesty has decided to authorize temporary importation free of Customs duties of the following named articles:

- (1) Empty sacks of foreign origin for exporting from Morocco cereals, vegetables, spices &c. and similar products.
- (2) Packing cloth for exporting wool, &c.
- (3) Empty cases for exporting eggs, fresh fruit, vegetables, &c., or staves for the manufacture thereof.
- (4) Wooden shavings for packing eggs for export.
- (5) Tins, mounted or not, for exporting preserved fish
- (6) Wooden or iron barrels for exporting wines, oils, &c.
- (7) Empty bottles for exporting aerated and orange-blossom waters manufactured in Morocco.
- (8) Hoops and wire for baling packages of goods.
- (9) Samples introduced by commercial travellers.
- (10) Mechanical tools and plant for the use of artisans, workmen and showmen temporarily coming to carry on their industry in Morocco.

† Hassani dollar = 100 centimes

(11) Articles for exhibition purposes.

(12) Sherrits and rope for packing exported hides or skins, and other products of the country.

(13) Oil for the manufacture of preserves for export.

ART. 2.—The temporary admission system shall be applicable in all the ports of the Empire open to trade.

ART. 3.—*Import operations*.—Goods intended to be imported temporarily must be fully specified in a declaration to be furnished in the same form and subject to the same penalties as in the case of goods declared for immediate consumption.

At the time of furnishing the detailed declaration, importers shall deposit the full amount of the duties properly payable on the goods and give an undertaking to re-export within six months the articles temporarily admitted duty-free, failing which being done on the expiration of said period the duties deposited shall be forfeited to the Treasury.

ART. 4.—*Export operations*.—The re-exportation of the articles temporarily admitted free of duty and scheduled as provided in Art. 1 above need not consist of the same identified articles as those which were originally brought in by the importers, who may discharge their temporary importation accounts by re-exporting equivalents, namely a like number or quantity of receptacles and containers of same quality and capacity as those imported.

The period of six months provided for in Art. 3 commences to run from the date when the products are inspected on entry into the Sherrefian Empire.

The date of shipment on the outgoing vessel shall be deemed to be the date of export.

Re-exportation shall take place through the port where the import declaration was established. It can be effected by parts; re-exported quantities being noted from time to time on the declaration.

#### TARES TO BE APPLIED IN THE CUSTOM-HOUSES OF THE PORTS OF MOROCCO.

|   |                  |
|---|------------------|
| (1) Cases of tea from China, packing of wood and palm leaves, exterior of canvas .....                                      | 21 %             |
| (2) Cases of tea from India, same packing .....   | 30 %             |
| (3) Iron barrels, so-called petroleum barrels ...   | 17 %             |
| (4) Lard, cases or casks .....  | 16 %             |
| (5) Candle cases .....  | 14 %             |
| (6) All other goods received or shipped in cases, wooden casks, packing of wood .....                                       | 12 %             |
| (7) Those shipped or received wrapped in canvas, cane, canisters, cocoons, cane matting, coarse fabric of goats' hair ..... | 6 %              |
| (8) Bales of cotton cloth .....   | real net weight. |
| (9) Casks of iron or wool, wrapped in straw, containing oil .....   | 18 %             |
| (10) Naked casks of iron or wood containing oil ...   | 15 %             |
| (11) Cordage used in binding skin or matting bales  | 2 %              |
| (12) Cereals in single bags .....   | 3 %              |
| " in double bags .....  | 3 %              |
| (13) Bags of canvas, bales, baskets .....   | 2 %              |

Inasmuch as certain goods are put up in double and occasionally treble packings, it will be optional for merchants to apply for assessment of the actual rate whenever the above conventional tariff appears detrimental to them. In the case of casks containing wines, beers and other beverages, measurement of the same shall be taken by special apparatus (gauges &c.).

#### DUTY-FREE ADMISSION OF FERTILIZERS AND MANURES.

The following manures are exempt from duty at all ports of the Empire open to commerce:

Phosphates and superphosphates of lime; scorite containing phosphates; metallurgical phosphates; sulphate of ammonia (artificial guano); Peruvian guano and *poudrette*. Exemption will also be accorded to all other products which are generally regarded as suitable for the fertilization of the soil, provided that they cannot be put to any other use.

These products shall be specified in detail in a declaration form relating to articles entering for consumption, in the same manner and subject to the same penalty as in the case of goods liable to import duties.

#### EXPORTATION.

Exportation of potatoes, green peas, onions, pumpkins, tomatoes and bananas may be effected, subject to payment of a 5% *ad valorem* duty per quintal.

Cocoon and raw silk may be exported, subject to payment of a duty of 10% *ad valorem*. (*Official communication of August 18th, 1903.*)

The exportation of bones is authorised subject to payment of an export duty at the rate of 62½ centimes per quintal.

By Decree of May 29th, 1901, and subsequent decisions, exportation of wheat and barley is authorised subject to payment of the following duties:—

|               |                                      |        |
|---------------|--------------------------------------|--------|
| Wheat, .....  | fanega of aban = 43 kil. or 93½ lbs. | Reals. |
| Barley, ..... | " 34 " 73 "                          | 10'00  |
|               |                                      | 6'00   |

#### IMPORTS & EXPORTS.

The coastwise trade in grain & other food-stuffs between ports in Morocco is now permitted free of duty. A deposit of duty must be made by the shipper at the port of shipment, to be returned on the landing of the articles at the port of destination.

#### PROHIBITIONS.

Throughout the whole extent of the Sherrefian Empire the importation of, and trade in, warlike arms, parts of arms, ammunition of all kinds, whether loaded or unloaded, powder, saltpetre, gunpowder, nitro-glycerine, and all materials destined exclusively for the manufacture of ammunition are prohibited, except in the following cases.

Explosives necessary for industrial purposes and for public works may, however, be imported on certain conditions.

Arms, parts of arms, and ammunition intended for the forces of His Sherrefian Majesty shall be admitted on the following formalities being observed:

A declaration, signed by the Moorish Minister for War, stating the number and kind of such supplies ordered from foreign industries, must be presented to the Legation of the country of origin, which shall affix its *visa*.

Cases and packages containing arms and ammunition, delivered to the order of the Moorish Government, shall be cleared through the Customs on the presentation of:—

(i.) The declaration aforesaid;

(ii.) The bill of lading, specifying the number and weight of the packages, and the number and kind of the arms and ammunition which they contain. This document must be certified by the Legation of the country of origin, which must indorse thereon the successive amounts previously cleared through the Customs. Such certification shall be refused so soon as delivery of the whole of the order has been completed.

The importation of sporting and high-priced arms, parts of arms, and cartridges, loaded or empty, is likewise prohibited. Provided, however, that such importation may be authorized:—

(i.) For the strictly personal requirements of the importer;

(ii.) For the supply of licensed arms-stores.

Sporting and high-priced arms and ammunition shall be admitted for the strictly personal requirements of the importer on presentation of a permit issued by the Representative of the Makhzen at Tangier. If the importer be a foreigner, the permit shall only be made out on the demand of his Legation.

As regards sporting ammunition, each permit shall be for not more than 1,000 cartridges, or the materials necessary for the manufacture of not more than 1,000 cartridges.

The penalty for importing, or attempting to import, prohibited goods shall be the confiscation of such goods, in addition to the penalties of fines or imprisonment.

#### PAYMENT OF DUTIES.

Import and export duties shall be paid in ready money at the custom-house where the clearance has been effected. The *ad valorem* duties shall be paid on the basis of the cash and wholesale value of the goods entered at the custom-house, free of customs and warehouse duties. In the case of damaged goods, the depreciation they have undergone shall be taken into account in their valuation. Goods shall not be removed except after payment of customs and warehouse duties.

#### REGULATIONS RESPECTING SHIPS' MANIFESTS.

Every captain of a merchant vessel coming from a foreign or a Moorish port shall, within twenty-four hours of his receiving pratique at any of the ports of the Empire, deposit at the custom-house an exact copy of his manifest signed by himself and certified to be correct by the consignee of the vessel. He shall, moreover, if required to do so, produce before the customs officers the original of his manifest. The customs authorities shall have power to place one or more watchmen on board to prevent all illicit traffic.

The following are exempted from the obligation to deposit the manifest:—

Men-of-war or vessels chartered on behalf of a Power; boats belonging to private individuals kept by them for their personal use, and not employed in the carriage of merchandise; boats or vessels used for fishing within sight of the shore; yachts solely used for pleasure cruises and registered as such at their home ports; vessels specially fitted out for the laying and repair of telegraphic cables; boats exclusively employed in life-saving operations; hospital ships; training vessels of the mercantile marine which do not engage in commercial enterprises.

The manifest deposited at the custom-house shall state the nature and origin of the cargo, together with the marks and numbers of the cases, bales, packages, barrels, &c.

Heavy penalties are imposed if the copy of the manifest is not deposited within the stipulated 24 hours or for an incorrect declaration.

## LIBERIA

an Act making a tariff on goods, wares, and merchandise, and produce imported and exported in and out of the Republic of Liberia.

(Approved March 10, 1910.)

*It is enacted by the Senate and House of Representatives of the Republic of Liberia in Legislature assembled :*

SECTION 1.—All goods imported into the Republic of Liberia are subject to a duty of 12½%, *ad valorem*, save and except such goods as are specified in Sections A and C herein provided. The articles of African produce liable to export duties are enumerated in Section B.

SECTION 2.—Duties are payable in gold, when in excess of the smallest gold coin in circulation, otherwise in current silver or copper coin.

SECTION 3.—There are no preferential duties with respect to countries from which goods are imported or to which produce is exported.

SECTION 4.—All measures of weight are reckoned avoirdupois, and liquid measures are reckoned in imperial gills, pints, quarts and gallons, except when otherwise specifically indicated.

## PROHIBITIONS.

All firearms, gunpowder, gun caps, balls, bullets, cartridges, and all other munitions of war, shall only be imported into the Republic by the Government of Liberia through the War Department.

The Government of Liberia hereby prohibits any person or firm desiring to import into the Republic for the purpose of trade, any firearms, gunpowder, gun cases, balls, bullets and cartridges shall only be permitted to do so through the War Department. All arms and ammunition imported for the Government shall be delivered over to the War Department. No person shall have entered into an agreement with the Secretary of War hiding themselves under a penalty to observe strictly and minutely any and all regulations which may have been issued or may hereafter be issued by the War Department, and which may be in violation at any subsequent time be issued by the War Department, for the purpose of evading the laws of Liberia, which prohibit the importation of arms and ammunition.

thereof, in which case the duty shall be calculated on the material liable to the lower rate.

3.—Manufactured articles in which are adornments of gold, silver or platinum, and which are not described as such (gold, silver and platinum) in the Tariff, shall be liable to an increase of 50 per cent. on the respective rates applicable.

4.—Net weight shall be understood to mean the intrinsic weight of the goods, without covers, packing or wrapping materials.

5.—Including weight of packing shall be understood to mean the weight of the goods together with covers, wrappings materials, casks, bottles, cardboard boxes, wooden cases or boxes, tins or cans, in which the goods are packed within the outer case used as a general container.

Whenever articles or commodities liable to duty including weight of packing, arrive separately or in bays or bulk, or in cases which are liable to Tariff separately, such articles or commodities shall be liable to an extra duty of 15 per cent.

Ceres and wrappings shall be understood to be objects of no value.

6.—As regards goods on which duty is payable per unit, measure, net weight or including weight of paper wrappings, duty on the containers in which such goods arrive, shall be charged according to the class under which such containers are described in the Tariff.

7.—Gross weight shall be understood to mean the weight of the goods together with all packing and fastening materials, with both external and internal coverings.

8.—Whenever goods liable to duty reckoned on gross weight, arrive in outer containers which are liable to Tariff, such as trunks, iron cases, iron tanks and others, such outer containers shall pay the corresponding duty, and the weight of the goods contained therein shall be increased by 20 per cent. in consideration of the packing which is not included.

Whenever a parcel contains goods which are liable to duty reckoned including weight of packing, in respect of which duty is leviable on the gross weight, the latter will be increased by 25 per cent. if packed in wooden cases, and 8 per cent. whenever packing is otherwise.

Are excepted pianos and organs, crystal articles, glassware, china or pottery, and absorbent and antiseptic cotton wool, on which 40 per cent. additional will be charged.

10.—Whenever the same parcel contains goods liable to different rates of duty, all on the basis of gross weight, the weight of tare shall be divided among them proportionately.

In the case of goods liable to duty on gross weight arriving in double cases for greater protection, the weight of the outer case shall be extended.

11.—Casks, bottles or earthenware or glass flasks, iron drums, wooden, cardboard or tin cases, etc., shall be deemed to be common or ordinary packing, provided always they are especially adapted to the goods contained therein and are not of themselves articles which add to the value of the contents of the container.

12.—Whenever goods contained in common or ordinary packing are liable to duty on the net weight or number, such packing shall not pay any import duty: however, if the goods contained therein are liable to duty reckoned on the gross weight, then the aforesaid common packing shall be liable to duty on the same rates as appertain to the goods contained therein.

13.—As regards packing not coming under the description given in Article No. 11 and when it is clearly seen that such packing is not exclusively suitable for the goods contained therein, and that such packing possesses a merchantable value of its own, being a class of packing de luxe or suitable for some other use than put to in the case of the goods in question, then such packing shall be liable to such duty as provided therefor in the Tariff and should be so declared in order to permit assessment of duty.

14.—Whenever there arrive effects used as outer or inner packing, which are liable to duty according to the Tariff, such as money boxes, trunks, overlay mattresses, furniture, etc., the same should be declared and shall be liable to such duty as is leviable thereon without being considered in such instances as packing material.

15.—Cloths (or fabrics) which arrive used for the purpose of affording protection for goods, inside parcels, should be declared and shall be liable to such duty as is provided for in accordance with Tariff, whatever be the quantity or class thereof, with the exceptions of oiling and tarpaulins (i.e. oiled and tarred fabrics), the sole object of which being to protect goods against dampness from the exterior and which arrive in such quantity as is indispensable for this purpose.

16.—Mirrors and marble which arrive in separate cases and are not shipped with any part adhering thereto of the furniture to which such mirrors and marble belong, shall be liable to such duty as is leviable thereon according to their own description.

17.—There shall be considered as Union fabrics, only such fabrics wherein the weft or warp is entirely made of cotton yarn or other vegetable fibre.

18.—There shall be considered as Union silk ribbons, only such ribbons wherein the weft or warp is entirely made of cotton, linen or woollen yarn.

19.—Union silk fabrics or Union silk goods shall be solely those wherein the weft or warp is entirely made of vegetable fibre or woollen yarn.

20.—Cotton, linen or woollen fabrics or goods adorned or embroidered with the same material or with material of such quality as is inferior to that of the main fabric, which are not provided for as such in Tariff, shall be liable to the corresponding duty subject an extra charge of 25 per cent. and whenever the adornment or embroidery is of superior material, the extra charge shall be equal to 10 per cent.

21.—Silk fabrics and silk goods adorned or embroidered with any material whatever not provided for in Tariff as such, shall be liable to an extra charge of 30 per cent.

22.—Jewels (or articles of value) and manufactured goods of all descriptions upon which duty is leviable on the basis of the net weight, whenever the same arrive contained in cases, should be declared as such in order that they may be assessed in accordance with the provisions of the Tariff, with the exception of such articles provided for in Tariff specifically in "cases."

23.—Should be considered as "cases," wooden or cardboard boxes lined with cloth or leather, also boxes which are varnished, painted, adorned or lined inside with leather or cloth, suitable to contain one or several objects in the corresponding divisions or compartments.

24.—Whoever there is any doubt as to the material of which imitation jewellery is made, this making it difficult to determine the class thereof, the duty shall be paid according to the highest rate.

25.—Under the description of articles for domestic use, the Tariff shall be meant to provide solely for articles intended for use on the table, in the kitchen or wash room.

26.—For the purpose of free clearance of the articles comprised in schedules Nos. 53 and 55, there should be produced an order from the "Ministerio de Hacienda" (Treasury), the same provision applying to the delivery of goods which are exempt from duty by reason of contract made with the Government.

27.—Articles belonging to operatic, theatrical or circus companies or other public entertainment concerns, and which are liable to duty, shall be admitted free provided always that there be given in due form an undertaking to take them out again from the country within a term of six months.

28.—Whenever chemical or pharmaceutical products bear on the outer container a label describing the contents as being different to description given in the declaration, even in the case of the goods being actually found in accord with the declaration, there shall always be levied the highest rate of duty either if the latter is applicable to the goods described in the declaration or to the commodity mentioned in the label.

29.—Whenever goods are packed in iron cases, tanks or metal tanks or other similar objects provided with special locks, the interested party shall be under the obligation of opening the same for the purpose of examination. If this regulation is not complied with, the goods will not be cleared.

30.—Whenever chemical and pharmaceutical products arrive in unsuitable containers or put up thus intentionally for the purpose of rendering slight examination difficult, whether the containers are opaque or whether they are packed in such a way as to prevent or hinder the officer to ascertain the exact nature of contents, the interested party shall be under the obligation of presenting open any of such packings as may be required; otherwise, the goods shall not be cleared.

31.—Chemical salts and compounds, in respect of which duty is provided in the Tariff under two generic headings in various portions of the Tariff, shall be liable to the duty leviable on the goods in respect of which the higher rate is applicable.

32.—Salts in powder shall be those which are found clearly to have been packed or wrapped up in such a form. Should salts packed in powder form be found to have become so hard that it is necessary to grind them again by the help of mechanical appliances, then they shall be deemed to be salts in lump form or crystals.

This rule shall apply to powders of all descriptions, with the exception of resin or gum-resin, which if they have been ground into powder form shall be liable to duty as powders even if found strongly conglomerated.

33.—The word purity used in the Tariff in connection with chemical substances, should not be taken in the rigorous or scientific meaning of this word. It shall suffice that the commodity should possess the organoleptic characteristics appertaining to the substance in question, for it to be considered as pure for the purpose of levying the duty.

34.—Salts prepared for fertilizing purposes should be of well characterised impurity, so that there be no doubt whatever as to whether they are intended for this use.

35.—Neutral acid or basic salts shall be subject to the same duty except those that are otherwise designated in the Tariff. Thus, acid sulphate of soda or bisulphate of soda shall be liable to the same duty as neutral sulphate, being that which is provided for in the Tariff.

36.—Pyroxyle (gun cotton) provided in the Tariff is that which is used for the preparation of collodion and celluloid; it contains a lower proportion of nitric acid and is less explosive than cotton used for explosive compounds.

37.—Scientific apparatus and instruments which are free from duty as per this Tariff, arriving arranged together with any manufactured article which is liable to duty, shall pay duty at the same rate as leviable on the manufactured article of which they form part.

38.—In order to obtain possession from the Custom house premises of fire arms other than those the importation of which is prohibited, it will be necessary to produce previously the corresponding authorisation from the Government.

39.—Regarding note paper and envelopes imported in assorted boxes, containing an equal quantity of paper and envelopes, one third of the total weight shall be deemed to be that of the envelopes, and two thirds, that of paper.

40.—Whenever the alcoholic density of brandies exceeds 20° Beaumé, the duty shall be increased according to the following:

TABLE

Red wine wines (clarets) exceeding 14 degrees of alcohol in bulk shall be subject to additional duty equal to 2 cents. per kilo., in respect of each degree or fraction of degree.

41.—Importers of wines and liquors which are not licensed for sale shall pay to the Customs, in addition to the respective import duty, a tax equal to 5 cents. per kilo., gross weight, when imported in glass or earthenware bottles, and to 10 cents. per kilo., gross weight, when imported in demijohns or barrels, always with the exclusion of double-barrels.

42.—As regards buildings and houses, complete or in sections, either wooden or iron, mentioned in the section for commodities free of duty, are excepted all staircases, paint and iron fittings, which do not arrive already placed in their proper position.

43.—Curtains, sheets, shirtings, table linen, towels, and various other similar commodities which arrive joined together one after the other through the continuation of the yarns in the web, but which are separated by means of designs or by guards provided therein, or with a small space between one another showing where they should be cut off, shall be liable to duty respectively as single pieces, and not as the material of which such articles are made.

43.—The rates mentioned in the Tariff in respect of goods which are of otherwise specified or not otherwise designated, are not absolute. Whenever goods are imported made of materials or in such forms as are unknown, which owing to their quality, name, or other circumstances, are not comprised in the Tariff, the parties interested may, should they deem it advisable, apply to the General Director of Customs, who, upon production of samples and full information of the case, subject to consultation with and approval of the Ministerio de Hacienda ("or treasury"), will decide as to the rates of duty leviable.

44.—There shall be allowed 5 per cent. in respect of ullage or average a wines, liquors, brandies, beer, ginger ale, sarsaparilla beer, cider, table and medicinal mineral waters and olive oil, when imported in glass or earthenware bottles, with the exception of medicinal wines.

Moreover, there shall be allowed 10 per cent. in respect of average on china, porcelain and crystal (glass) ware in connection with articles for domestic use; as regards tubes, lamp shades, globes and lamps, flasks, common bottles, or for aerated water and flat glass, when the same arrive a separate parcels.

45.—Advertising materials, not otherwise specified, with advertisements, respecting which it is clearly understood that they are not intended for sale, shall be subject to an allowance equal to 50 per cent. of the duty payable thereon.

46.—As regards food products which are found to be in a state of decomposition when examination is made, the same shall be ordered to be brown away or interred at once through the medium of the agents of the authorities.

|------------|--|---------------|------------|---|---------------|
| 2188       | Carbonate of lime, precipitate or washed, for medicinal purposes, and carbonate of lime of animal origin, such as egg-shell, red coral and crawfish powders, net weight.....   | kilo. 0 40    | 2228       | Emulsions, creams and milks, medicinal, not otherwise designated, except scented such-like preparations which will pay duty as perfumery, including weight of packing.....  | kilo. 0 40    |
| 2190       | Carbonate of magnesia, in powder or paper-wrapped cakes, gross weight.....   | kilo. 0 25    | 2229       | Essences, artificial fruit, such as cocoa, peach, raspberry, strawberry, netting, grape (brandy essence), spirit or extracts of almond (orgat), rose, vanilla, and other similar ones; extracts of ginger or other edible substances, for the purpose of preparing aerated waters or for culinary uses, and sparkling extracts and compositions for similar purposes, including weight of packing.....        | kilo. 1 75    |
| 2191       | Carbon, sulphur and tetrachloride of carbon, gross weight.....   | kilo. 0 10    | 2230       | Essences of lavender, chamomile, cinnamon (Chinese cassia), curaway, cayupet, cedar, clidre, cylander, citronella, clover, cumin, fennel, eucalyptus, hyssop, jasmine, (spirit of jasmine), juniper, lemon, ligualeos, myrrhan, orange, nutmeg, orisatum, rosemary, rue, sabn, sage, agar tree, wild thyme, tansy, white or red thyme, net weight.....  | kilo. 3 25    |
| 2192       | Carbide of calcium and carbide of ellcium (carbolumin), including weight of package.....   | kilo. 0 05    | 2231       | Essences of orange blossom, Kananga, orris, patchouli, ylang-ylang, and legitimate rose (attar of roses), net weight.....   | kilo. 10 0    |
| 2193       | Carmine of Florence (cochineal) and indigo and other carmines, net weight.....   | kilo. 10 00   | 2232       | Essences or essential oils, not otherwise designated, net weight.....   | kilo. 4 00    |
| 2194       | Setchels containing medicines in phials or pocket medicine or relative outfits, including weight of packing.....   | kilo. 3 00    | 2233       | Essences mixed, or admixture of various essences for the preparation of eau de cologne, Florida, Dyle, Kananga or other similar waters, net weight.....   | kilo. 6 00    |
| 2195       | Castors, whole or in powder form, and civet in paste or powder form, net weight.....   | kilo. 8 00    | 2234       | Essences in diminutive phials, such as those originating from China, with mint essence or others, including weight of packing.....  | kilo. 1 00    |
| 2196       | Caustics, liquid or solid, such as Vienna Caustic, except those which are shipped as specialties, including weight of packing.....   | kilo. 3 00    | 2235       | Essence of turpentine or spirits of turpentine, gross weight.....   | kilo. 0 25    |
| 2197       | Chocolates, medicinal, whatever the form, including weight of packing.....   | kilo. 1 00    | 2236       | Spatulas, steel, fine or ordinary white metal, also for laboratories.....   | doz. 2 00     |
| 2198       | Cyanides (prussiates) of potassium, sodium, ammonium and zinc; sulphocyanides of aluminium, ammonium and potash, net weight.....   | kilo. 0 60    | 2237       | Spatulas, horn, vulcanite (hard rubber), bone or wooden, for laboratories.....  | doz. 1 25     |
| 2199       | Ferrocyanide of potassium (yellow prussiate) and ferrocyanide of potassium (red prussiate), net weight.....  | kilo. 0 30    | 2238       | Spices, medicinal, bitter, diuretic or others not specified, including weight of packing.....   | kilo. 1 00    |
| 2200       | Cigarettes. (See Purgatives.)  |               | 2239       | Spirit of orange blossom, cinnamon, scortory grass, lavender, nutmeg, patchouli, rosemary, rose, violet, ylang-ylang and various other spirits and alcohols with flavour or scent, not otherwise designated, known under the description of "extracts" in the perfumery trade, including weight of packing.....   | kilo. 1 50    |
| 2201       | Citrate of ammonia, lime, iron, magnesia, potash and soda, net weight.....   | kilo. 1 00    | 2240       | Sponges, prepared with or string or impregnated in medicinal or antiseptic substances, also brushes with sponge, hair or other materials, either straight or bent, for the purpose of applying medicaments in the throat, nostrils, ears, eyes, etc., including weight of packing.....  | kilo. 6 00    |
| 2202       | Chloral, anhydrous and hydrated, also hy-products, chloral-amidol, croton-chloral chloralose, etc., net weight.....  | kilo. 2 50    | 2241       | Sterilizers, for domestic uses, i.e., apparatus used for sterilizing milk, other beverages, complete or not, also bottles and spare parts, for such apparatus, including weight of packing.....   | kilo. 0 40    |
| 2203       | Chloroform, and similar products, in bottles or common packing, and in matting, net weight.....  | kilo. 0 05    | 2242       | Sterilizers of nickel-plated iron, copper, aluminium or white metal, for sterilizing cotton wool or other materials, including the boilers or digesters for sterilizing pharmaceutical or surgical appliances and utensils, with or without accessories, such as lamps or other heating devices, including weight of packing.....   | each. 2 00    |
| 2204       | Chloroform, in bulbs or tapered glass tubes, sealed with the help of lamp, or in other special form of packing, such as "Chlorey Beuë," Adrian's chloroform, in phials up to 60 grammes, including weight of packing.....  | kilo. 0 20    | 2243       | Cases or chests, containing surgical instruments, amputating, dissecting, obstetric, etc., and cases or chests of dentistry instruments, and all apparatus, instruments and machines for dental purposes, not otherwise specified, each article not weighing more than 2 kilos, surgical chests such as so-called Lister's, Simpson's "Maternity" and other similar outfits, including weight of packing..... | kilo. 1 00    |
| 2205       | Chloride of ammonia (sal ammoniac), net weight.....  | kilo. 0 10    | 2244       | Cases, hypodermic, or cases or wallets containing hypodermic tablets or solutions, with or without respective syringes, including weight of packing.....  | kilo. 4 00    |
| 2206       | Chloride of calcium, impure, for industrial uses, also chloride of methyl for industrial purposes, gross weight.....   | kilo. 0 10    | 2245       | Ether, acetic, chlorhydric, nitric, valerician and sundry other classes of medicinal ether, not otherwise specified, pure or in alcoholic solutions, net weight.....  | kilo. 1 20    |
| 2207       | Collodion, medicinal or photographic, simple or compounded, and other similar compounds, such as so-called "liquid plaster," including weight of packing.....  | kilo. 1 25    | 2246       | Ether acetic of amylic alcohol, amylic, butylic, methyllic, oenatic or oenanthylic ether, valerician ether of amylic alcohol, and various other ethers, not specified, to prepare artificial fruit essences, net weight.....  | kilo. 4 00    |
| 2208       | Aniline colours and similar preparations, also vegetable colours in powder, paste or liquid form, not otherwise designated, net weight.....  | kilo. 2 00    | 2247       | Ethers (as above), in alcohol solutions or mixed with one another, including weight of packing.....   | kilo. 1 75    |

## SECTION XVI.

## WAREHOUSING DUTY.

Goods of any description whatsoever which are allowed to remain in the Custom Warehouses for more than one month, as from the date of landing, shall be liable to Warehousing Duty as follows:

For the first period of thirty days beyond one month as aforesaid duty at the rate of three centavos (\$0.03) per diem in respect of each one hundred (100) kilos, or fraction thereof exceeding ten (10) kilos remain beyond said goods (\$0.08) as above, when such goods are allowed to remain beyond said period.

When goods are left in the Custom Warehouses because they are held for the disposal of the shipper, no warehousing duty shall be charged.

All articles liable to payment of 30 per cent. gold on the duty leviable thereon, and all articles admitted duty-free, shall be liable to a like payment of 30 per cent. gold on the warehousing duty leviable thereon.

## NOTES TO THE TARIFF.

NOTE 1.—Goods admitted duty-free already or subsequently included in this section, shall pay, in national currency, a storage tax of 1 cent. per kilo. gross weight.

NOTE 2.—Zephyrs in which there is a slight alteration in the fabric, formed by 2 or 3 yarns corded together, will be considered as plain fabric.

NOTE 3.—This schedule No. also includes boot laces and tapes for chemises.

NOTE 4.—When collars arrive without special boxes, 25 per cent. additional duty shall be paid.

NOTE 5.—The number of threads in the web shall be determined through the semi-total sum of the threads which can be counted in the weft and warp in a square 6 mm. side; one additional thread will be counted when the sum found is an odd number. This operation is made with the help of a thread-counter.

NOTE 6.—When cuffs (plain) arrive without special boxes, 25 per cent. additional duty will be charged.

NOTE 7.—Diaphanous fabrics weighing less than 40 grs. per square metre, even when plain fabric, shall pay the duty provided for under this Schedule No.

NOTE 8.—Mercerized cotton goods and fabrics, will be liable to an extra of 15 per cent. on the duty leviable thereon.

NOTE 9.—Shall be considered as clothing for children, costumes with short trousers (knickerbockers) and costumes with long trousers not exceeding 80 centimetres in length.

NOTE 10.—This schedule No. shall include handkerchiefs made of linen fabrics containing up to 24 threads in a square 6 mms. side.

NOTE 11.—Chemical or artificial silk goods and fabrics, will pay the same duty as provided for linen goods and fabrics, plus 20 per cent. additional.

NOTE 12.—Whenever the weight of fabric exceeds 400 grs. per sq. metre, a rebate of 20 per cent. shall be allowed on the duty assessed. The same provision shall apply to woollen cloths, chevots and friezes.

NOTE 13.—Woollen goods and fabrics containing artificial silk shall be dealt with as pure wool for the purpose of assessment of duty.

NOTE 14.—All fine or diaphanous fabrics weighing less than 22 grs. per square metre shall come under the description of muslins.

NOTE 15.—This schedule No. shall cover clothing or costumes the ground of which is silk, even if the outer part, belt, or sash is made of any material.

NOTE 16.—The weight of weighing machines shall not include the wooden blocks used to erect same, but will include the parts forming the platform.

NOTE 17.—Pen knives stitched on cards, shall be subject to a rebate equal to 25 per cent. on the weight.

NOTE 18.—When proportion of manganese in such alloys exceed 25 per cent., the metal ceases to be magnetic, and this affords the easiest method of control.

NOTE 19.—Burners or roasters for coffee, etc., weighing more than 10 kgs., will be assessed as cookers or kitcheners.

NOTE 20.—Steel cutlasses or machetes for agricultural purposes, are for heating, being heavy, as the lower end is wider than the part immediately after the handle. Whenever such machetes are with sheath, duty will be assessed on the basis of the subsequent schedule number.

NOTE 21.—Fluoride of glaucine, in the presence of chlorhydric acid, colours pink paper made of wood pulp produced by machinery, this colouring being more or less strong, according to the proportion used in the pulp.

NOTE 22.—Cards with monograms and those having only a small picture in the corners come under this item.

NOTE 23.—In the weight liable to duty double cases or cases are not included.

NOTE 24.—Ordinary salt, not refined, but ground, is subject to an extra duty of 25%.

NOTE 25.—Light or sour wines are subject to a reduction of 25 per cent. of the fixed rates. As regards wines in wooden containers the regulations respecting spirits (see note) are applicable.

NOTE 26.—Articles not having a covering of rubber or other substances inside or outside which makes them waterproof are not considered included in the items 1820, 1821, and 1822.

## MONEY, WEIGHTS AND MEASURES.

The monetary unit of Salvador is the peso (100 centavos). For weights and measures the metrical system has been adopted.

## TARIFF (1) (2).

CONTAINING ALL MODIFICATIONS AND ADDITIONS PUBLISHED IN THE "DIARIO OFICIAL."

## PROVISIONS RELATING TO THE COLLECTION OF DUTIES.

ART. 1.—Import duties shall be levied according to the following tariff.

NOTE.—The specific duties in the import tariff are to be increased by 25 per cent., and the residual duties paid at the rate of 2 pesos or colonies per dollar instead of the 280 pesos per dollar formerly collected, or the 250 pesos per dollar provided for in the Budget Law.

## IV.—PRIVATE WAREHOUSES.

ART. 13.—The following articles cannot be admitted into national warehouses, and may only remain on deposit three days:

Acids; alcohol in wooden vessels; dynamite; ether; matches; fireworks, including Chinese crackers; explosive caps; gasoline; kerosene; naphtha; gunpowder; petroleum; sulphur; carbide of calcium; liquid cartridges; stearine; oil; paraffin; resin; tobacco in any form; olives in wooden vessels; garlic; lavender; almonds in sacks; starch; aised; bird-seed; sugar in sacks; preserves; sweets; chocolate; vermicelli; dried fruits; biscuits; food; hams; fresh vegetables; butter; sops; potatoes; cheeses; and other foods and condiments, which either by reason of the packing, or nature of the contents, are liable to become decomposed.

## V.—SPECIAL PROVISIONS AS TO CLEARANCE.

ART. 15.—All duties and taxes established by the present Tariff will be charged upon the gross weight of the goods affected, except in the case of cattle imported from the neighbouring Republics.

ART. 16.—All persons or associations that desire to open, or keep open, public commercial establishments, and the marks used on the packages which they import shall be registered in all the Custom houses of the Republic.

ART. 17.—All goods must be invoiced under the names specified in the Tariff, giving also the species to which the goods belong, as satin, Irish goods, damask, &c.; further, the material must be specified, as cotton satin, or woollen satin, Irish linen goods, or cotton goods, &c.; otherwise the declaration will be considered incomplete.

In the case of unclassified goods, or when any person has ordered goods not mentioned in the Tariff, samples of the same must be submitted to the proper Ministry for classification.

ART. 18.—In cases where it may be necessary to apply a duty to articles or manufactures of coarse or fine materials, and where the said materials are not expressly specified in the respective section of the Tariff, the following will be considered as coarse materials:

Steel and iron; aluminium; bronze and copper; brass; tin; white metal or German silver; nickel-plated steel; nickel; pewter; lead; zinc; baraboo; rush; cane; esparto; wicker; reed; palm; straw; wood; wood pulp; cork; pasteboard; paper; parchment; leather; bristles; horsehair; horn; bone; whalebone; corozo; celluloid; wax; cereatine; rubber; gutta percha; crystal; glass; lava; clay; terra-cotta; earthenware; porcelain; cement; stucco; gypsum; alabaster, granite, jasper, marble, porphyry and similar stones; agate and jade.

And the following as fine materials:

Silvered or gilded metal; silver; platinum; gold; amber; tortoise-shell; mother-of-pearl; coral; meerschaum; ivory; human hair; fine pearls and precious stones.

ART. 19.—Articles or materials that are introduced as accessories of machinery or apparatus, will be assessed for duty as such only when imported in quantities that may be necessary before operations can be commenced; those imported afterwards, under the same denomination, and the surplus, if there is any for the purpose indicated, will be assessed as set forth in the Tariff.

ART. 20.—In every package containing articles of various kinds, subject to different rates of duty, the duty on the receptacle shall be calculated in relation to the total amount of the duties on the contents. This proportion will be found by multiplying the total duties on the articles, weighed with their respective coverings, by the weight of receptacle, and by dividing the product by the total dutiable net weight; the quotient will represent the amount of duty payable on the receptacle.

ART. 21.—When a dutiable article contains other goods, it will be treated as the receptacle of such goods, and will also pay the duty leviable upon it under the Tariff, in the following way:

## FIRST CASE.

If the container is, for instance, a trunk, bag, basket or other dutiable article, the duty on such article is to be added to the duty on the goods:

Example:

A trunk weighing gross 90 kilos, contains:

|                                 |            |        |         |
|---------------------------------|------------|--------|---------|
| Handkerchiefs of silk, 40 kilos | .....at    | \$3 00 | = \$120 |
| Shawls, 20 kilos                | .....at    | 7 00   | = 140   |
| 30 kilos, for the trunk (tare)  | .....value |        | 120     |
| Duty on the trunk, 30 kilos     | .....at    | 0 30   | = 9     |

## SECOND CASE.

If the package contains free and dutiable goods, the weight of the former shall be included in the divisor:

Example:

|   |            |            |
|---|------------|------------|
| Case weighing gross 30 kilos, contains: |            |            |
| Surgical instruments, 16 kilos          | .....      | Free       |
| Silk shawls, 4 kilos                    | .....at    | \$7 = \$28 |
| Tare, 10 kilos                          | .....value | 14         |
|   |            | \$42       |

ART. 22.—When a consignment is ordered to be examined, a surtax of 25 % on the total of the duties and taxes will be levied. Exceptions will be made in the case of goods changing on board ship of incomplete unshipments; of packages with marks or numbers repeated, or without numbers, when they contain sheets of galvanized iron; pieces of lumber and machinery, unpacked; petroleum and other inflammable materials; barbed fence wire; fresh potatoes; wheat flour; cement; lump coal; stearine, unmanufactured; piping; iron in bars, rods, or plates, unpacked; loose skeins and tyres for carts; bundles of iron buckets; shovels; large ladders and moulds for sugar; and, in general, all other unpacked articles, or packages which are not liable to cause confusion, either by reason of their not being taken into the warehouse, or because their contents are visible. Collectors of Customs are duly authorized to administer the contraband law in all its severity when they are convinced that marks and numbers have been duplicated with fraudulent intention on the part of the importer.

## VI.—EXPORT DUTIES (1) (2) (3) (4).

ART. 23.—A general export duty of 50 centavos per quintal, i.e., per 46 kilos, gross weight, shall be levied on the following goods (3):

Balsam.

Coffee. See note at end of Tariff.

Hides of neat cattle.

Rubber.

Deer or other skins.

ART. 24.—Export coffee shall be subject to a surtax of 50 centavos per 100 lbs. gross weight, and if in parchment, 120 lbs. of this latter coffee shall pay the same duty as 100 lbs. of bean coffee.

ART. 25.—Balsam, hides of neat cattle, rubber, and deer or other skins, shall, in addition to the general tax, pay \$1.50 per 100 kilos, to be applied to the Central Railway, and \$1 per 100 kilos, by way of surtax.

Gold and silver in bars, ingots or otherwise ..... | \$ ½ |

Ores ..... | 2 ½ |

Exception is made for ores and mineral waters, which, by virtue of an agreement with the Government not approved by the Executive are exempted from this tax.

ART. 26.—Product and articles of every other description shall, on exportation, be free from all duties and taxes.

REMARKS.

1. Cotton, woollen and linen articles, such as antimacassars, garters table covers, belts, neckties, corsets, curtains, braces and other like articles not specified, having small ornaments of another finer material, shall be assessed as if they were without such ornaments.
2. Machines for the treatment or bettering of agricultural produce of the country shall be dutiable as agricultural machines, and be free from all duties and taxes.
3. The 10 and 20 centavos following immediately the Customs duty on spirituous and sweet liquors, represent the surtaxes.

DAMAGED GOODS.

1. In the case of partly damaged shipments of bottled wines, liquors &c., imported in cases, the cases will each be filled up to the original number of bottles, thus reducing the number of cases. If the last case should contain six or more bottles, the tare on the whole case will be allowed, but if there should be less than six bottles, tare will not be taken into account.

2. Under conditions of a leaking or partly empty condition, from whatever cause, will pay duties and taxes on their full weight, but the consignee has the right to abandon demijohns or barrels that are nearly empty.

3. No reduction of duties or taxes will be made in the case of goods that have depreciated in value by reason of damage sustained on board ship; but the interested party may abandon the damaged portions.

4. Articles such as tobacco, preserves, grains, fruits, and other eatables or beverages that may have become decomposed in transit, may be either totally or partially abandoned, according to circumstances, but no reduction will be made upon the part that is accepted by the owner.

(1) See Articles 5 and 6 of the Law dated April 4, 1911, and the Law of May 8, 1911, hereinafter.

(2) Under conditions of April 30, 1912, from this date, and until further notice, grains of first necessity in general are prohibited exports.

(3) The Law of March 28, 1912, provides as follows:

ART. 1.—The products classed in Articles 23 and 25 of the Customs Tariff shall pay per 50 kilos, gross weight, the following duties:

|  |       |         |
|--|-------|---------|
| Balsam   | ..... | \$20 00 |
| Rubber   | ..... | 10 00   |
| Deer or other skins                                    | ..... | 5 00    |
| Leaf tobacco   | ..... | 2 00    |
| White sugar, centrifugated (see note at end of Tariff) | ..... | 0 50    |

ART. 2.—The products are free from the general export duty of 50 centavos per 46 kilos, and also from the duty on the Central Railway, per 100 kilos, levied on behalf of the Central Railway, and from the surtax of one peso on all these taxes being established in Articles 23 and 25 of the Customs Tariff.

ART. 3.—Rice, pamon, brown centrifugated sugar, and unmanufactured tobacco are absolutely free from every export duty and tax.

ART. 4. Articles 5 and 6 of the Law dated April 4, 1911, are modified as regards the taxes level on the above mentioned goods.

ART. 5.—The present provision will enter into force on the 1st May next in respect to the goods specified in Article 1, but it shall have the effect of Law from the day of its publication as regards the goods declared to be exempt from duty.

(4) The Law dated April 17, 1912, provides as follows:

ART. 1.—The exportation of bananas of native production is exempted from every duty and fiscal and municipal tax during a term of 10 years.

ART. 2.—The term referred to shall be computed from the 1st January, 1913.

4399

5. Provisions, beverages or other articles that have become decomposed and have been abandoned by the owner, shall be thrown away, and a memorandum to that effect made and approved by the Administrator, auditor, storekeeper, and the owner or his representative.

6. Damaged and abandoned goods that retain value will be remitted to the General Treasury warehouse.

#### Consular Invoice Law dated April 3, 1900.

ART. 1.—Any person who may ship articles of commerce from a foreign country to San Salvador, even though such articles may be exempt from duties, must draw up an invoice in quadruplicate of all the goods constituting his shipment to each consignee. These invoices are to be written in Spanish, and must include:

- (a) The name and residence of the shipper, the name of the vessel, and of the master thereof; its destination, the name of the consignee and the name of the person by order and on account of whom they are shipped.
- (b) The marks and serial numbers on each package.
- (c) The kind of package (bag, case, or bale, &c.).
- (d) The gross weight of each package in kilograms, except in the case of machinery, lumber and iron, of which the price and weight only need be given.
- (e) The name of the merchandise contained in each package and its origin.
- (f) The value of the goods in currency of the country of origin.
- (g) In shipments of wines and liquors, the alcoholic strength of the same must be specified.

ART. 2.—Consuls will refuse all invoices containing interlineations, alterations, corrections or erasures, unless approved and initialed at foot by the interested party who in this case shall pay one peso for every defective copy.

ART. 3.—No invoice can contain two or more packages entered under the same mark or the same number or with the same mark and number. Exception to this rule is made for unpacked iron in any form, for rough lumber and machinery; but no goods destined to different consignees may appear in the same invoice.

ART. 4.—Consular invoices having legal value before courts or in investigations, the shippers will, at foot of each invoice, make the following affidavit under oath in full: "I the undersigned . . . make oath and say on my honor that the foregoing invoice consists of . . . sheets and relates to . . . packages weighing . . . kilograms and represents . . . (in currency of the country whence the goods originate) that the marks on and number of each package, weight, contents and quoted price thereof correctly refers to the packages shipped by me, and agrees with the entries in my books, and that the goods have been insured for the sum of . . ."

ART. 5.—Consular officers are only to certify invoices for such merchants or manufacturers as, either personally or through their duly appointed attorneys, attend to make the affidavit in connection with goods bought or supplied by said merchants or manufacturers.

Under penalty of dismissal, Consuls will absolutely refuse to certify invoices when presented to them by simple shipping agents or others. In fact, with a view of preventing fraud, the chief object of this law is to ensure veracity of the affidavit, and to guard against its being signed except by the bona fide correspondents of Salvadorian trade, genuine buyers or suppliers of the embarked goods.

ART. 6.—Any false declaration as to weight, contents of packages, denomination of goods, price, and any other provision of this Law, as well as inobservance of the stipulations of Article 3, shall be liable to the penalty of the Law. In the case of false declaration bearing upon the insured value, the goods will be liable to forfeiture.

ART. 7.—The Consul will affix the Consular seal to every sheet of the invoice presented to him and at foot of the last page his visa in the following form: "I certify that this invoice has been presented to me by affidavit being, and that the consignors are established merchants in this city." If, on the other hand, the goods belong to a Consular representative of some other country, it shall be lawful for the invoice to be drawn up in conformity with the regulations established in the country represented by such Consular officer, and if the certificate is issued by two merchants the laws in force in the country whence the goods were despatched shall be complied with. In either case the person concerned is required to forward the copies referred to in Art. 9.

ART. 8.—The Consul will note upon each invoice the fees received by him under the following tariff. The peso shall be charged at par value in the currency of the country wherein the fees are paid, viz.: in Great Britain at 18 s., in France at 5 francs, in Germany at 4 marks, in Italy at 5 lire, in Spain at 5 pesetas.

For every invoice amounting:

|   |        |
|---|--------|
| up to 325 . . . . .   | \$1 00 |
| to more than 325 and up to \$100 . . . . .                                  | 2 00   |
| " 100 . . . . .   | 1 00   |
| " 500 . . . . .   | 1 00   |
| " 1,000 . . . . .   | 1 00   |
| " 1,000, 25 centavos per \$100 or fraction of \$100 up to \$5,000 . . . . . | 5 00   |
| " 5,000, 10 centavos per \$100 or fraction of \$100 . . . . .               | 10 00  |

ART. 9.—The four copies of the invoice shall be dealt with as follows, viz.: one handed to the shipper, another transmitted by the Consul, if possible by the same mail to the Principal Collecting Department, the third to the Customs Administrator at the port of destination, and the Consul will file the fourth in his official archives.

ART. 10.—The Customs of the Republic are not allowed to proceed to the clearance of goods if the consignee has failed to produce the certified invoice.

Should the Consular invoice required to be produced by the consignee be mislaid or not have arrived, the goods can be cleared, and checked with the invoice received by the Customs, and falling same, with a certified copy of the invoice transmitted to the Principal Collecting Department.

ART. 11.—The manifest of any shipment consigned to any port in Salvador and crossing the Isthmus of Panama must necessarily be vised by the Salvadorian Consular Officer at Panama, who is alone qualified to fulfil this function.

ART. 12.—When a vessel carries freight for any port in the Republic, and such freight is not to cross the Isthmus of Panama, the vessel shall, notwithstanding, be provided with the manifest duly vised by the Salvadorian Consul in the port of shipment.

ART. 13.—Customs Administrators who permit clearance of goods without observing the formalities prescribed in the present Law, shall, in each instance, be liable to a fine of 100 pesos.

ART. 14.—The present Decree shall enter into force three months after the date of its promulgation.

Consular Invoice Ordinance of May 29, 1911.

("Diario oficial" of May 29, 1911.)

1.—If the importer does not possess a Consular invoice, he will beseech in writing on stamped paper, a certified copy thereof from the proper Customs authorities, who will draw it up subject to the payment of 1% of the invoice value at the current rate of exchange of the day. The payment of this sum will be made by means of stamps affixed to this certified document and the Customs Administrator will request by telegram the authority of the Minister of Finance to issue the certified copy bespoken.

2.—If on receipt of this request, it appears that the Consular invoice neither at the Customs house nor at the Principal Collecting Department the Administrator will notify the merchant, who may in that case depart for the Customs examination, subject to paying a surtax of 25% on the aggregate duties and taxes.

3.—At the time of clearance, duty-free articles are found, the party interested shall pay thereon four times the amount of the Consular fee leviable on certification of the invoice.

4.—The 25% surtax for the Customs examination, and also the duplicate of the amount of the Consular fees on the invoice and the duties thereon, shall be refunded to the merchant on application made by him to the Minister of Finance, and if within 3 months from the date of the Consular invoice he produces a certificate from the proper Consul showing that the Consular invoice was made out at the required date, but in every case 1% of the amount of the Consular invoice referred to in Art. 1 shall be deducted on behalf of the Treasury.

5.—The present Ordinance shall enter into operation on the day of its publication.

Circular dated February 15, 1904, respecting Articles composed of two or more substances, &c.

I.—Articles or manufactures composed of two or more substances, which are not expressly mentioned in the Tariff, shall pay duties on the substance material that preponderates as to quantity.

II.—Articles or manufactures on the free list, if imported, attached to dutiable articles, shall pay the duties corresponding to the latter.

III.—Articles or manufactures paying a low duty, if imported attached to those paying a higher duty, shall pay the same duty as the latter.

IV.—Sacks, trunks, valises, baskets, cases, knapsacks and in general articles or manufactures which by their form and quality are clearly seen to have a commercial value, when imported as packing for other merchandise, shall be declared in the Customs manifest the same as the article which they are packed, in order that the Customs Tariff may be applied to them and in conformity with the rules allowed according to Article 3 of the Tariff and in conformity with the rules of the special laws of September 13, 1902. When the objects specified in the circular are of interest to parties shall deliver the keys for opening them, even though such objects should not come as packing and should not consequently contain merchandise.

V.—In articles of a mixed composition, such as accordions, toilet cases, thermometers, telephones, phonographs, and other similar articles, it shall not be necessary to specify the materials of which they are made, and the same is true of those articles which are not similar to other articles in which they may be confused, or because they are of a certain material and can not be manufactured out of any other, thereby rendering them unnecessary such, for example, as chords or strings for musical instruments, and lead pencils of all kinds, edged tools for artisans, billiard tables, surgical instruments, sewing machines, agricultural and mining machinery, &c.

VI.—The Customs Administrators of the Republic are authorized to allow merchants or their duly authorized agents or representatives to correct, add to, and explain the errors, deficiencies, and doubts which may be contained in the invoices, as much with respect to the formalities and requisites which do not affect the classification and weights as in the declaration of marks, numbers, weight, classification and class of merchandise. They are also authorized to declare the contents of wines and liquors when it has been omitted, and the amount upon which insurance was made, if that should not have been specified (unless the merchandise should not have been insured) and in that case it shall be so specified in the petition for corrections.

VII.—The Administrator shall admit as valid all invoices with errors or mistakes in the sworn declarations and in the Consular certificates, provided always that the copy received at the Customs house has the same errors, formalities and it appears to him that it will not give rise to any abuse or fraud, as well as the declarations which do not name the captain of the ship, the name of the ship, or without the respective number, or with mistaken marks, and those which are certified to by a Consul resident in a country other than that from which the goods come.

VIII.—The parties in interest, either individually or through representatives, shall, at the proper time, file a petition written on stamped paper of the value of 25 centavos, requesting with clearness and exactness that the corrections, additions, and other explanations which they desire to make, be received as true. This petition, approved by the Administrator, must be delivered to the proper Customs employee, with instructions to proceed to clearance and attaching it to the respective Customs manifest, and to the other vouchers and in conformity with the petition the employee shall note the corresponding declarations as to its contents.

IX.—There shall not be admitted, either in the Customs house itself or in any of the higher Customs offices, any recourse or claim relating to said request.

X.—Notwithstanding the power conceded, the Administrators may deny this relief, provided they detect fraud on the part of the merchant or agent dealing with a case not covered by these instructions and the decision of which is reserved to the Customs Secretary's Department.

XI.—The Administrator is also empowered to admit and decree Customs examinations of one or more packages, on the following conditions:

1. Provided there are presented two or more packages with marks and duplicate numbers, even though these latter have some particular sign or the word "bis."
2. When the interested party has not received a Consular invoice, or should said document not be in the Customs house or the Principal Collecting Department within thirty days after the unloading of the merchandise.
3. When there are one or more packages without marks, numbers or without both the marks and numbers, or when the same package has

NEW LEGISLATIVE PROVISIONS AFFECTING IMPORTATION  
AND EXPORTATION.

Law dated 21th March, 1909, as to the Analysis Tax on imported Liquors,  
Wines, and Alimentary Preserves.

ART. 1. Liquors and wines of all kinds imported into the country, in whatever receptacle contained, shall only be removed from the Customs after having been analyzed to show their good quality.

ART. 2.—At the time of liquidating the entry bill, the party interested shall pay, for each bottle of 24 ounces capacity, taking the alcoholic strength permitted by law, a tax of 50 centavos silver, for liquors; 25 centavos for generous wines, including white wine, and 6 centavos for red table wine. The tax shall be increased proportionally in case of excess of the alcoholic strength permitted by law, at the rate of 3 centavos per additional degree.

ART. 3.—Pending the creation, by the Executive, of chemical laboratories at the Customs, the analyses referred to shall be made at the laboratory of the Central Committee of Agriculture of the Capital, to which the Administrators shall forward with all required precautions a duly sealed bottle of each description of liquor or wine to be analysed.

ART. 4. Imported alimentary preserves such as meat, fish, vegetables, &c., &c. shall also be analyzed in the form adopted for liquors and wines, and the importers shall pay a tax of 10 centavos silver per kilo.

ART. 5. Liquors and wines found to be injurious to health shall be thrown away and preserves shall be burnt.

("Diario Oficial" of May 6, 1909.)

ART. 1.—The analysis to which are subjected wines and liquors under the Law dated March 24, 1909, is extended to home-brewed and imported beer destined for consumption, same being subject to an analysis tax of 2 centesimos per bottle of 12 ounces capacity.

ART. 2.—Liquors and wines manufactured or prepared in the country shall pay an analysis tax of 12½ centavos per bottle of 24 ounces.

ART. 3.—Liquors, wines, beers and preserves which have been ordered abroad prior to the entry into operation of the Law dated 24th March and of the present Law, shall not be liable to the tax for analysis for home consumption, but the date of shipment thereof will have to be proved by

ART. 4.—The Executive may order at any time an inspection to be made in order to test the good quality of the liquors, wines, beers, preserves, &c. entering into consumption.

ART. 5.—The Executive may, if he deems fit, permit the exportation of liquors, wines, beers, preserves, &c. imported into the country and which owing to their bad quality are not allowed to go into consumption.

ART. 6.—If after analysis their entry for consumption is allowed, the Government will make good to the merchant, importer or producer the cost price of the bottle, tin, &c. which may have been destroyed in consequence of the inspection effected.

ART. 7. The analysis tax on preserves shall be charged on the gross weight.

## TARIFF LAW ON IMPORTATIONS.

ARTICLE 1. Customs duties shall be paid upon all articles, goods and merchandise imported from foreign countries into Nicaragua as prescribed by the following tariff.

ARTICLE 2.—The following rules, and the rules and notes elsewhere stated in this law, shall be observed in the construction and application of this tariff.

## GENERAL RULES.

### TREATMENT OF FABRICS.

RULE 1. Number of threads and manner of determining. By the number of threads in a fabric shall be ascertained the total number of all threads contained in the warp and weft thereof in a square of 6 millimetres. The warp is the threads which lie longitudinally in a fabric, whether they form the foundation thereof or have been added thereto. The weft is the threads which cross the warp, whether or not from selvage to selvage. To determine the number of threads in a fabric and the proportion thereof subject to the highest rate of duty, a thread counter shall be used, each side being 6 millimetres.

In fabrics woven wholly or in part with twisted, double or multiple yarns, each strand of such yarn shall be counted as one thread in determining the thread count.

Should a fabric be more closely woven in some parts than in others the number of threads in the most closely woven part and in the most loosely woven part of the body of the fabric shall be ascertained, and the average number of threads resulting shall serve as the basis for levying duty.

Threads shall be counted on the finished side of the fabric, if the nature thereof permits; otherwise, on the reverse side. If necessary to ascertain the number of threads, the nap shall be removed or a sufficient part of the fabric unravelled.

Should this be impossible without damaging a made-up article, the fabric shall be subject to the highest rate of duty applicable in the group to which it belongs, and if the fabric be mixed it shall be dutiable at the rate applicable to the most highly taxed component material in the exterior of the article.

RULE 2. Mixtures of two materials.—Fabrics composed of two materials shall be dutiable in accordance with the rules stated at the heads of classes D, E, and F (Rules 28 to 35).

RULE 3. Mixtures of more than two materials.—Fabrics composed of more than two materials shall be dutiable as follows:

(a) Mixed fabrics of wool and cotton, or of wool and other vegetable fibres, containing threads of silk, in which the number of silk threads, counted in the warp and weft, does not exceed one-fifth of the total number of threads, shall be dutiable under the corresponding items of Class E.

When the number of silk threads exceeds one-fifth of the total, the fabric shall be dutiable under the corresponding item of Class G.

(b) Mixed fabrics of cotton and other vegetable fibres, together with threads of silk, in which the number of silk threads, counted in the warp and weft, does not exceed one-fifth of the total number of threads, shall be dutiable under the corresponding items of Class E, with the addition of a surtax of 70% for the threads of silk.

When the number of silk threads exceeds one-fifth of the total, the fabric shall be dutiable under the corresponding item of Class G.

(c) Mixed fabrics of wool, cotton and other vegetable fibres, containing no silk threads, in which the number of threads of wool, counted in the warp and weft, does not exceed one-fifth of the total number of threads, shall be dutiable under the corresponding items of Class E, with the addition of a surtax of 40% for the threads of wool.

When the number of threads of wool exceed one-fifth of the total, the fabric shall be dutiable under the corresponding item of Class F.

(d) Made-up articles of fabrics containing threads of more than two materials, in any proportion, shall be dutiable under the corresponding items of the class to which belongs the component material subject to the highest rate of duty.

RULE 4. Silk fabrics.—All fabrics containing silk threads, the number of which, counted in the warp and weft, exceeds one-fifth of the total number of threads composing the fabric, shall be dutiable as silk fabrics under Class G.

RULE 5. Artificial silk.—Artificial silk in any form shall be considered as silk for the purposes of this tariff. Fabrics or made-up articles that are mercerized shall pay a surtax of 10%.

RULE 6. Selvage.—No surtax shall be imposed nor shall any change in classification be made on account of yarns dyed or printed in the selvage only, nor for trade names or marks on the fabric.

RULE 7. Plain-woven fabrics.—Fabrics in the weaving of which the threads or yarns (of one strand) of the weft are carried alternately over and under each warp thread, forming right angles throughout the piece, and in which the threads or yarns (of one strand) of the warp are carried alternately over and under each weft thread, forming right angles throughout the piece, shall be considered as plain woven.

When the weaving does not correspond to the process described above, the fabric shall not be considered plain woven for the purposes of this tariff.

RULE 8. Weight of fabrics per 100 square metres.—In determining the weight of any fabric per 100 square metres, for the purpose of classification, the calculation shall be based upon a sufficient quantity of the fabric itself, exclusive of boards, paper, labels, tags, strings, tickets, embroidery, trimming or any other thing, object or process (except bleaching, sizing, printing, dyeing, stamping, embossing or mercerizing), added or performed after the fabric has left the loom.

The usual tapes, boards and hum-stute wrapping shall be included with the fabrics in determining the dutiable weight.

### EXCEPTIONS.

RULE 9. Pile fabrics and knitted and netted fabrics. Flashes, velvets, velveteens, all pile fabrics, all kinds of knitted or netted fabrics, tulle, lace and boleros, containing threads of textile materials, shall be dutiable at the rate applicable to the most highly taxed component material, whatever be the proportion of such material in the article.

RULE 10. Ribbons, galloons, braids, tapes and trimmings.—Ribbons, galloons, braids, tapes, tassels and trimmings containing an admixture of textile materials shall be dutiable at the rate applicable to the most highly taxed component material, whatever be the proportion of such material in the article. When any of these articles contain metal threads in any proportion it shall be dutiable under the corresponding item of Class G.

RULE 11. Brocades (broches). Brocades dutiable under Class D, when containing silk, shall be subject to the corresponding duties, with a surtax of 15%.

Broadcutes dutiable under Class E, when containing silk, shall be subject to the corresponding duties, with a surtax of 30 %.

Broadcutes are fabrics with ornamental figures formed by means of a shuttle at the time of weaving in such a manner that the threads forming the figure occupy only that space.

RULE 12. Embroidery and trimmings. Fabrics embroidered by hand or machine after weaving (except Swiss embroideries or insertions), or with drawn or appliqué work, or with application of trimmings, shall be subject to the corresponding duties, with a surtax of 30 %.

If the embroidery contains threads or puri of common metals or of silver, or spangles of any material other than gold, the surtax shall be 60 % of the duties applicable to the fabric.

When the threads, puri or spangles are of gold, the surtax shall be 100 %.

Embroidery is distinguished from patterns woven in the fabric by the fact that the latter are destroyed by unravelling the weft of the fabric, while embroidery is independent of the warp and weft and can not be so unravelled.

RULE 13. Appliqué work. By appliqué work is meant the superimposing of another material or of the same material on fabrics or made-up articles in the form of designs, by means of sewing, pasting or other process.

RULE 14. Drawn work.—By drawn work is meant the binding or cutting of threads after weaving in such a manner as to leave interstices in parts of a fabric or article, which, at the time of weaving, were filled by threads of the warp or weft.

RULE 15. Trimming.—By trimming is meant the application to a fabric or article, for purposes of decoration or embellishment, of ribbons, laces, braids, galloons, pieces of fabrics or other materials, pieces or beads of metal or glass, bone, composition, wood, ivory, coral or other material, buttons and buckles in places where not required for fastening, as well as unusually ornate buttons, buckles or fasteners.

RULE 16. Metallic threads. Fabrics composed exclusively of metallic threads shall be dutiable under Class E.

Fabrics or articles (except those provided for in Rules 10 and 12 preceding), dutiable under Classes D and E, containing threads or puri of common metals or of silver, shall be liable to a surtax of 50 % of the corresponding duties.

If the threads or puri are of gold, the surtax shall be 100 %.

RULE 17. Made-up articles and ready-made clothing.—Made-up articles, including ready-made clothing, not elsewhere specifically provided for, shall be treated in accordance with Rule 1, and shall be dutiable at the rate applicable to the most highly taxed component material in the exterior, with a surtax of 50 %; Provided that made-up articles specified in this tariff shall not be subject to any surtax for manufacture unless such surtax is specially provided for in connection with the corresponding item.

The made-up articles referred to specifically in this tariff or in this rule shall be held to include articles completely made up or finished, partly finished, cut, basted or hemmed, as well as fabrics in the piece so designed or marked as to indicate their ultimate use.

#### SURTAXES.

RULE 18. Surtaxes.—The surtaxes applicable on account of broadcutes, metal threads, embroidery, trimming or manufacture, shall be computed on the primary duties leviable on the fabric, including therewith any increase of such duties on account of admixture.

When more than one surtax is applicable to any textile or article, the percentage of increase for each surtax shall be calculated on the primary duties.

#### ARTICLES NOT SPECIFIED AND THOSE COMPOSED OF SEVERAL MATERIALS.

RULE 19. Articles composed of several materials.—Any article not specified in this tariff, manufactured of two or more materials, shall be subject to the rate at which it would be dutiable if composed wholly of the component material of chief value; and the words "component material of chief value," wherever used in this tariff, shall be held to mean that component material which exceeds in value any other single component material of the article, and which, in such case, component material shall be determined according to the assessed value of such material in its condition as found in the article.

RULE 20. Articles not specified.—In classifying an article not provided for in this tariff, its commercial designation shall govern.

Imported articles not specified in this tariff, which are similar to any herein specified, shall pay the same rate of duty which is levied on the specified article, and shall be subject to the same rate of duty in the order following: First, in material; second, in quality; third, in texture; fourth, in the use to which they may be applied. If any article not specified equally resembles two or more enumerated articles on which different rates of duty are chargeable, such unspecified article shall be subject to the same rate of duty as is chargeable on the article which it resembles paying the highest rate of duty.

RULE 21. Two or more rates of duty.—If two or more rates of duty shall be applicable to any imported article or manufacture, it shall pay the highest of such rates.

#### GROSS AND NET WEIGHTS.

RULE 22. Gross weight. The gross weight of imported merchandise is the weight of the goods, together with all the containers, packages, covers, receptacles, wrappings, baling, vessels and packing of every kind, whether exterior, interior, or immediate, in which the merchandise is contained, held or packed at the time of importation.

RULE 23. Net weight. The dutiable weight of imported merchandise which pays duties upon net weight shall not include the weight of any common exterior package, cover, receptacle, baling, wrapping or packing, but shall include all interior or immediate receptacles, including carboard, paper, paper, paper, or other material to which the articles are pasted, glued, nailed, or otherwise attached, and all other similar materials interposed between the exterior container and the immediate receptacle of the merchandise to protect it shall not be included in the net weight.

RULE 24. Kilos. Weights shall be expressed in kilos, or fractions thereof.

#### AD VALOREM.

RULE 25. Value defined. Whenever imported merchandise is dutiable according to its value (*ad valorem*), the dutiable value shall be the wholesale price of such merchandise in the principal markets of the country

whence imported, packed and ready for shipment, including the value of all cases, crates, sacks, packages and containers of every kind, and other charges and expenses incident to placing the merchandise in condition ready for shipment, but not including ocean freight, insurance, export duties, consular fees and buyer's commission.

#### RECEPTACLES, PACKAGES AND PACKING.

RULE 26. Articles in the same packages.—When articles dutiable on gross weight and on net weight, by count or measure, *ad valorem*, or free of duty, are imported in a single package, the weight of the common exterior container and packings shall be prorated by weight among the various articles, and the proportion for the articles dutiable on gross weight shall be added to the net weight of such articles to determine the dutiable weight.

When articles dutiable on gross weight under different items are imported in a single receptacle the weight of the common exterior container and packings shall be divided proportionately among the various articles being added to their net weights.

RULE 27. Duty on coverings or receptacles.—Unusual packages.—No duty shall be collected on exterior coverings containing articles dutiable on net weight, by count or measure, or free of duty, in general commercial use as such when imported, except coopers' wares, such as barrels, hogsheads, pipes, kegs, which shall be dutiable. Coverings of merchandise (interior or exterior) of material or form designed to evade duties or for use other than that intended by the tariff shall be subject to duty as articles or manufactures under the items of the tariff to which they correspond by classification. Interior packings containing merchandise dutiable on the net weight shall in no case pay a lower rate of duty than their contents.

Cases for jewellery, used as immediate containers therefor, shall be dutiable under their respective items.

#### DEFINITIONS.

ARTICLE 3.—Wherever in this tariff the words "the same" or "same" appear they shall be held to refer to and mean the articles mentioned in the preceding item or clause.

ARTICLE 4.—The following abbreviations are used in this tariff to represent the terms indicated: G. W., gross weight; N. W., net weight; G. p., not otherwise provided for.

ARTICLE 5.—The unit of duty prescribed by this tariff are stated in cordobas (dollars) or fractions thereof.

ARTICLE 6.—This law shall be known as the Tariff Law of 1918.

#### RATES OF DUTY.

ARTICLE 7.—The rates of duty on articles, manufactures, goods and merchandise imported into Nicaragua shall be as follows: (See pp. 518 to 536.)

ARTICLE 8.—If in the examination of imported merchandise at the custom house there results a difference between the appraised values of the merchandise as made by the custom house and the values declared in the entry requesting liquidation, and such appraised values exceed by 10 % the values declared in the entry, the penalty shall be a fine equal to the amount of the duties of which the National Treasury would have been defrauded.

ARTICLE 9.—If any importer or exporter, or his agent, makes or attempts to make an entry of imported or exported merchandise by means of a false invoice or any false statement, by which the National Treasury would be defrauded of the proper and just duties and revenues, the act shall be punished by the custom house by a fine equal to the amount which the National Treasury would have lost, or by confiscation of the merchandise for the benefit of the National Treasury, or by both fine and confiscation.

ARTICLE 10.—The custom house shall refund 75 % of the import duties collected on wooden boxes or barrels, set up or knocked down, bands of wood or iron to secure such boxes, and cans of tin or sheets of tin plate for making cans, provided that such boxes, barrels or cans are exported within six months of the date of their arrival, containing fruits or other vegetable or meat products of the country, and provided also that the duties collected on any importation are not less than 5 dollars. The custom house shall require the necessary proof that the boxes, barrels or cans exported, for which the refund is solicited in accordance with this law, are the same as those imported, on which the full amount of the duties has been paid.

ARTICLE 11.—The description of imported merchandise in the consular invoice and in the entry shall be according to the nomenclature of the tariff or to the equivalent commercial terms, including the name, component materials, quality and special details required by the tariff. The interpretations and explanations necessary to elucidate the items of this tariff will be published by the Collector-General of Customs from time to time by means of circulars, in order that the custom house may act uniformly in the matter and the merchants have due notice. For the period of one year from the date when this law takes effect the Collector-General of Customs is empowered, in his discretion, not to impose the fines prescribed by the customs laws for a difference between the classification of merchandise at the custom house and that declared in the entry by the importer, provided that such difference does not affect the weight, quantity or value of the merchandise in question.

ARTICLE 12.—All other tariff laws, decrees, orders and decisions referring to the rates of duty on imports or affecting the duties thereon are repealed, except those contained in contracts or treaties made by the Republic and those stated in the Mining Code.

ARTICLE 13.—This tariff law shall be in effect on and after March 1, 1918, and the law of December 3, 1917, shall continue in force.

(c) Roulette wheels, gambling outfits, apparatus and devices.

(d) Implements of war and munitions, when not imported for use by the Government.

## NICARAGUA AND GREAT BRITAIN.

A commercial convention between Great Britain and Nicaragua was signed at Managua on the 28th July, 1905, and ratified at London on the 24th August, 1906.

By this treaty almost most-favoured nation treatment as regards import and export duties, and as regards all prohibitions and restriction on importation and exportation, is provided for; exception being made, however, in the case of certain advantages accorded by Nicaragua to the Central American Republics only.

As regards trade and navigation generally, national treatment is accorded, except in the case of coasting trade. National and most-favoured-nation treatment is reciprocally accorded in all that relates to exemption from transit duties, warehousing, bounties, facilities, and drawbacks.

Art. II. of the treaty provides that the port privileges at the Port of San Juan del Norte are to be abolished, but the port is to remain open to trade on the same footing as the other ports of the Republic. By a protocol annexed to the treaty, the Nicaraguan Government agrees to give Customs-house bonds to the merchants at the port in question for a sum equal to that which they would pay in commercial tax during the last 10 years. These bonds will be accepted in payment of Customs duties.

In accordance with the most-favoured-nation clause of this treaty, the reduction of 25% of the Customs duties conceded by Nicaragua in respect of a number of articles of French production, under the French-Nicaraguan Convention of 1903, will be extended to similar articles of British production. The following are the articles in question:—

Dry wines of 14° and under; champagne; mineral waters; arseniate, hydrobromate, bromide, hydrochlorate, sulphate, nitrate, valerate of quinine; medicinal wines and other wines composed of quinine; olive oil for the table; mustard, ground or prepared; powders of all kinds for condiments; preserved truffles; sauces of all kinds; olives, capers, pickles; preserved fruits; vegetables, artichokes, tubers, not specified; dried fruits; fruits preserved in liquors or in their own juice or in syrup; crystallized fruits; skins and leathers—sheep, morocco, chamois, varnished and waxed calf, goat and other skins not enumerated; leather gloves; pigskins and imitation thereof; shoemakers' thread; stuffs for slippers; ribbons for shoes; shoe laces; boot and shoe elastics of wool or cotton; woollen or cotton shoe for slippers; shoemakers' knives; eyelets and tacks for boots and shoes; resins; paste; lasts of all kinds; boot luttons; book bindings, solid or liquid; tapes and rivets; woollen cushioners and cloths; satins and other tissues of pure wool for men's clothing, with or without silk threads or stripes; surgical instruments; office requisites not enumerated; silk or woollen alpaca for clothing; carpets of vegetable fibres.

The treaty came into effect ten days after the exchange of ratifications (i.e., on the 31st September), and is to remain in force for a period of ten years, and thereafter until one year after denunciation by either contracting party.

## NICARAGUA AND FRANCE.

Convention ratified on 31st September, 1903, in force until a year after denunciation by either contracting party. In return for certain privileges accorded to goods of Nicaraguan origin, Nicaragua has agreed to admit certain articles from France, Algeria, the French colonies and possessions, and the Protectorates of Indo-China and Tunis at a reduction of 25% of the Customs duty on imports from Nicaragua.

These articles are enumerated in a list annexed to the Convention, and include dry wines of 14° and under; champagne; certain preparations of quinine; mineral waters; olive (table) oil; various condiments; dried and preserved fruits and vegetables; certain skins; certain woollen tissues, &c. Raw materials for soap works and printed books and newspapers are declared free of duty.
